

WANT RETAILERS TO HEAR ADDRESS BY MACKINTOSH

Advertising Club Head Has
Message of Special Inter-
est to Merchants

Charles H. Mackintosh, president of Associated Advertising Clubs of the World, who will be the guest of Appleton Advertising club on May 4, will talk on "Salesmanship" following the banquet in 12th hall in his honor. Mr. Mackintosh, through his long tour in which he visited most of the advertising clubs in North America, has obtained a great deal of information concerning reconstruction and rehabilitation of American business. His address, it is said, will be based quite largely on these experiences and observations.

His message will be of special importance to retailers, it is reported. A special effort is being made to have every retailer in the city attend the dinner in honor of Mr. Mackintosh. Members of the chamber of commerce, Rotary club, Lions club, Business and Professional Womens club

STEVENS HOME SOLD TO NORMAN BROKAW

Norman Brokaw, son of Mrs. Katherine Brokaw, 344 Union st., a member of the Central Paper Co. of Menasha, has purchased from John Stevens of Appleton the home of his father, the late John Stevens of Neenah, located on East Wisconsin-ave. and will take possession within the next few days. The consideration was private. The deal includes 140 feet frontage on the opposite side of the avenue.

and Appleton Womens club have been invited. Reservations should be made at Schlitz Brothers or Downer pharmacies.

Mr. Mackintosh has visited the majority of advertising clubs on this continent in pursuance to his pledge to visit them all before the next international convention in Milwaukee next June.

RECOMMEND SITE FOR NEW CHURCH

Building Committee of Methodist Church Holds Conference With Architects

When members of the Methodist church meet on Monday evening to make further plans for the building of the new church, the building committee will have a recommendation of site and architect to make. The committee of which Dr. Samuel Plantz is chairman met with architects on Tuesday to discuss plans. Conferences and meetings took the greater part of Tuesday afternoon and evening.

Representatives of five architectural firms submitted plans and brought plans and pictures of the most prominent churches in the middle west. The firms which are being consulted are those which were picked from more than 25 which applied for a chance to work on the church. The architects who were represented at the meetings on Tuesday were: Childs and Smith of Chicago, who were the architects of Lawrence Memorial Chapel, First National Bank, Russell Sage dormitory and the Vocational school, Alex-

ander C. Eschweiler, Milwaukee; Harry W. Jones, Minneapolis; Talmadge and Watson, Chicago; Smith, Reynolds and Doren, Manitowoc.

A daughter was born at Theda Clark hospital, Neenah, Tuesday evening to Mr. and Mrs. Harrison Fisher, 492 South-st.

WOMAN COMMENDS JUDGE ON METHOD OF PICKING JURY

National Leader of Womans
Party Amused at Criticism
of Wisconsin Woman

Full endorsement of Judge Edgar V. Werner's questionnaire to prospective women jurors in Outagamie county has been given by Mrs. Catherine Waugh McCulloch, Chicago, chairman of the committee on uniform laws concerning women in the National League of Women Voters.

This endorsement was in response to a criticism in which a Milwaukee woman and an official of the Wisconsin League of Women Voters took issue with Judge Werner on the ground that his questions to women in his questionnaire to all prospective jurors was a discrimination against women. The nine questions addressed to women inquired into the health, family and household burdens that would effect service on a jury.

Mrs. McCulloch states that "it amused me to read the criticism" and refers to the recommendation approved by the National League of Women Voters concerning the legal status of women, the ninth recommendation declaring "Women should be subject to jury service with exemption for mothers with young children."

"Your questions," said Mrs. McCulloch, "are in the same line of thought only amplifying the idea further."

Judge Werner is commended by the league official for his view that the personal service of some women is so needed in their homes that the injury from the loss of such service would be too great to be offset by the service to the state which a woman might perform by acting as a juror.

Mrs. McCulloch adds that although "for any of the nine reasons any judge might excuse women from jury service," she believes it may be necessary in this year's resolution to make "a more comprehensive recommendation."

"I shall refer to your questions often," she said, "for I think they are important."

Judge Werner's nine questions addressed to women in the questionnaire to prospective jurors are:

1. If selected as a juror at any term of court, will you serve as such?

2. Are your household duties such that you could leave home and remain from home for a period from one to two weeks?

3. Have you sufficient domestic help that will enable you to leave your household duties?

4. How many constitute your family?

5. Do any members of your family require your undivided care and attention due to their age, or number?

6. Are you in good health and able to render jury service?

7. Is the occupation of your husband such that your absence from home, on jury service, would work a great hardship to him and seriously effect the welfare of the family?

8. If you have any other reason why you would not or could not serve as a juror, state fully in this questionnaire.

The information gained by these questions and the entire questionnaire is very valuable to the court in that it saves much time and money as well as relieves the juror of unnecessary inconvenience.

Prepare New System Of Renaming Streets And Of Numbering Houses Here

City Engineer and Street Committee of Council Work on Plan to Eliminate Duplication of Names and Uncertainties of Numbers.

Among the several important projects which the common council will be asked to pass upon within the next few months will be a system of renaming some of Appleton's streets and establishment of a new and scientific system of numbering houses. The movement to bring about this change was started three or four years ago but was abandoned for a time because of war conditions and because a new directory had just been printed and it was deemed unwise to make radical changes at that time.

Recently, however, the city engineering department and the street committee of the council have given the matter considerable attention with the result that a proposal for a change is almost ready for presentation to the council.

Changes have been made in names of some city streets in order to eliminate the practice of having two or more names for what is practically the same street and to enable travelers to find their way in the city with more ease.

One of the most radical and important changes proposed is that all streets running east and west in Appleton—that is parallel with College ave.—shall be called avenues and all streets running north and south shall be called streets. This change is proposed to simplify the matter of direction.

One result of this is the necessity of finding a new name for Second ave., inasmuch as Second-st. will be known as Second-ave. after the change is made. It has been suggested that persons interested in the system send suggestion for a new name for Second-ave. to the Post-Crescent and they will be submitted to the street committee of the council.

The matter of renumbering involves many difficulties but has been worked out by the engineer and the street committee.

Each block will contain 100 numbers and that the corner of College-ave. and Oneida-st. be the starting point or zero from which all numbers will start. Streets will be called east, west, north or south as they are those directions from College-ave. or Oneida-st. For example Oneida-st. north of College-ave. would be called North Oneida-st. and College-ave. west of Oneida-st. would be called West College-ave.

Numbers would go up from that intersection with 100 numbers in each block. A person looking for 315 East Washington-ave. would know that the number sought was in the third block east of Oneida-st. Another seeking 965 North Morrison-st. would know he would find that number in the ninth block on Morrison-st. north of College-ave.

Travelers, real estate men, postal employees and others who have occasion to use addresses say Appleton's street naming and numbering method is the most complicated and slipshod system anywhere in the state. It is extremely difficult to direct strangers to a given address because no system in numbering has been followed.

The city engineer and street department have given this matter considerable thought and prepared a list of street names which should be eliminated because the streets they name are continuations of others. These streets will be enumerated in another article.

New Dance Pavilion

Charles Melz, who is to erect a dance pavilion on his farm on Appleton-Menasha-rd. on the north side of Fox river, commenced work on the foundation Monday. The structure will be 60 by 80 feet in size and will be enclosed. He expects to have it completed by June 1 and plans to give two dances a month.

Mrs. Q. D. Marston, who is recovering from a serious attack of pneumonia at Los Angeles, Calif., where she spent the winter, is planning to return home early in May.

Landowners Seek Method of Safeguarding Against Floods in Future

A movement to merge the Wolf or Valley Improvement association with the Local Association for Relief From High water and secure government cooperation in construction of a drainage ditch from the Wolf river to Duck creek, has been launched at Black Creek and Shilston within the last few days. A petition looking toward this merger and cooperation of government now is being circulated in the two towns.

Landowners who suffered serious losses because of the high water are agreed that steps must be taken to prevent recurrence of the flood. Many of them are convinced that the most feasible means is to construct the big ditch from the river to Duck creek. This will carry off the flood water from the river to Duck creek which empties into Green Bay and at the same time will drain thousands of acres of marsh land.

It is proposed to start the ditch a few miles south of the town of Lee-man and then run it through the swamps in the north central part of the county to Black creek and then to Duck creek. The canal would be about 24 miles long. The route has been surveyed but the cost has not been estimated. It is said the plan involves some engineering problems but they are not insurmountable.

Scarcely a Half Dozen Teachers Will Not Return to Appleton Next Term

Appleton seems to be a magnet for high school and graded school teachers, for there is no shortage of teachers here, according to Miss Carrie Morgan, city superintendent of schools. It was reported Monday that scarcely a half dozen teachers will leave the city this year a large number of new applications have already been received.

Nearly all the common school teachers have returned their contracts. The high school teachers still have a week in which to sign, but indications are that there will be no more than two or three changes in the faculty. Principal Lee C. Rasey announced.

"The teachers seem to like the place," Mr. Rasey said, "and the salary, though not the highest, is quite satisfactory. We never have much of a turnover here and the city is to be congratulated on that account."

"The turnover here is smaller than it was last year, I believe, and that is as it should be," said A. G. Oosterhaus, principal of the First ward school. "Other things being equal it works for great efficiency."

STUDENTS WORKING ON THEIR ANNUAL MAGAZINE

Material for the high school annual "The Clarion" is being prepared. The book will go to press this week. No subscriptions have been taken but it is expected a campaign will be started in a few days. The magazine will consist of about 100 pages.

ARE WHIRLWINDS AT HANDLING MAIL

Annual Test of Distribution Clerks Reveals Speed and High Efficiency

Sorting 1,777 letters to the proper carrier districts in 341 minutes with only one placed in the wrong pigeon hole of the city distribution case is the record of one of nine clerks at Appleton postoffice in the annual test of fitness conducted by John R. Lotter, superintendent of mails. The clerk's accuracy was 99.9 per cent.

This phase of the mail service is shown to be well above the standard required by the government, for the nine men averaged 98.54 per cent accuracy in the tests with an average speed of 37 letters a minute. The postoffice requirement is an accuracy of 95 per cent and a speed of 30 letters a minute.

The examination is conducted by the use of cards addressed to all parts of the city. The clerk is timed as he "throws" them to the correct carrier pigeon hole and his work is checked up to see how many errors were made. A total of 31,888 cards was handled during the tests.

Averages made by the clerks show a high degree of efficiency in the local postoffice. The contest is a tryout of what a man can do because there are many "catch" cards in the lot such as places at dividing lines of routes, addresses of persons having post-office boxes and others where two carriers serve a business house at different times.

Embodiment An Ideal of Service

IDEALISM combined with practical efficiency are the motives inspiring the 25,000 men and women who make up the personnel of the Standard Oil Company (Indiana).

The ideal of production is to create petroleum products as nearly perfect as is humanly possible. The expression of this ideal in tangible form has resulted in a vast and superlatively efficient service to 25 million people in 11 Middle Western States.

To perform this service our complete refineries are working 24 hours every day. At the Whiting Plant alone the Standard Oil Company (Indiana) employs more than 3,500 people and has an annual capacity of

14,600,000 bbls. of crude oil
7,750,000 bbls. of gasoline
2,190,000 bbls. of refined oil
1,800,000 bbls. of lubricating oil
35,000 tons of refined wax
100,000 tons of asphalt products
14,000 tons of candles
2,500 tons of parowax
24,000 tons of grease

These plants are the visible expression of an ideal. To bring them to their present degree of efficiency required years of time, intensive training, wide experience and almost limitless resources.

The seven men who guide the affairs of the Standard Oil Company (Indiana) are planning constantly new methods and more ways to achieve greater effectiveness in serving the people depending upon the Company for petroleum products.

These men are working to perfect a complete service—first by manufacturing a maximum number of useful petroleum products and second by maintaining a complete system of distribution which shall carry these products to the consumer whenever and wherever he may have need for them.

1,800,000 bbls. of lubricating oil
35,000 tons of refined wax
100,000 tons of asphalt products
14,000 tons of candles
2,500 tons of parowax
24,000 tons of grease

These plants are the visible expression of an ideal. To bring them to their present degree of efficiency required years of time, intensive training, wide experience and almost limitless resources.

The seven men who guide the affairs of the Standard Oil Company (Indiana) are planning constantly new methods and more ways to achieve greater effectiveness in serving the people depending upon the Company for petroleum products.

APPLETON POST-CRESCENT

VOL. 38, No. 272.
PUBLISHED DAILY EXCEPT SUNDAY, BY THE
POST PUBLISHING COMPANY,
APPLETON, WIS.
JOHN K. KLINE, President
A. R. TURNBULL, Secretary-Treasurer
H. L. DAVIS, Business Manager
ENTERED AT THE POSTOFFICE AT APPLE-
TON, WIS., AS SECOND CLASS MATTER
SUBSCRIPTION RATES
THE APPLETON POST-CRESCENT is delivered
by carrier to city and suburban subscribers for
fifteen cents a week, or \$7.50 a year in advance. By
mail, one month, 65c; three months \$1.50, six months
\$2.50, one year \$4.00 in advance.

STRIKE NOT SOLVING FUEL
PROBLEM

Considering the production of coal as an economic and social problem, it is practically certain that the present strike will offer no solution satisfactory either to the operators or the workers. Of course, it could hardly bring about a solution satisfactory to the public. The capacity of operating mines is estimated at 700,000,000 to 900,000,000 tons a year, while the demand approximates 500,000,000 tons. Bituminous mines are worked an average of 214 days a year. As to operation and employment, there is no regularity, both varying in accordance with seasonal demand.

There appears to be an over-development of production; that is, the production is always considerably in excess of the demand. For example, the production at this time is at least 700,000,000 tons a year, whereas the demand does not exceed 500,000,000 tons. Likewise, there is a surplus of labor. Stimulation of production has resulted in increasing the number of mine workers beyond the employment demand.

Everything indicates that the termination of the coal strike is to be no different than that of other strikes which have preceded it. It is to be a fight between the operators and the miners until one side weakens. As for getting at the causes of the strike, with a view to eliminating them in the future, nothing substantial is indicated along this line. It is true that thus far the worries and burdens of the strike have been confined principally to the contending parties. There is so much coal above ground that the public has not felt the effects of the strike, and is therefore indifferent; in fact, it is scarcely aware there is a strike. Eventually, however, when he has been assessed in benefits to remunerate the operators for their lost production, the consumer will realize that it is he who foots the bill.

The strike has disclosed at least one thing, and that is that there is excessive waste in the coal industry. There is always a tendency toward over-production, too many mines are in operation, too many miners are employed to work them. Theoretically the tendency toward over-production should hold down coal prices to the advantage of the consumer, but this is not actually a fact. The conditions which obtain in the coal mining industry are so productive of waste and inefficiency as to make producing costs higher and consequently prices to the consumer higher.

There is no prospect that there will be change for the better so long as present conditions continue. Over-development of our coal resources is wasteful, uneconomic and costly to the consumer. Because of the fact that men can be employed only part time the rate of wage helps to make a high labor cost. With the public demanding lower fuel prices and the miners constantly demanding higher wages to compensate them for their loss of time, the operators are between the evil one and the ocean blue. Strikes and other interruptions of the industry are inevitable.

Still the fact remains that the nation's dependence upon an adequate and economical fuel supply is so vital that relief in some form is mandatory. We do not think there is any real demand for nationalization of the coal mines, and yet the public concern is so great that federal intervention seems inevitable. A national investigation which went to the bottom of the coal mining industry, capable of making sound and persuasive recommendations, is needed. We can never solve our fuel problem until we grapple with it with all our national strength and determination. Politicians can and will do nothing. The responsibility must be on

dertaken by men in whom the country has entire confidence and in whose judgment it will abide.

RECKLESS DRIVING AND RECKLESS WALKING

Careless walkers are almost as much to blame as reckless automobile drivers for accidents and fatalities. Reckless drivers are criminals. They should be severely punished and their right to drive a car revoked.

Careless walkers invite personal injury. Watch the throngs crossing streets. They cross-cross, turn to the left, ignore signals, dash out from the curb without looking, and try to get from pavement to pavement by every means except the proper and safe. The public needs some common sense hammered into it in its use of streets.

THE CORRUPT PRESS

The newspapers of Wisconsin, says Governor Blaine, are "banded together like highwaymen to protect the cheaters and oppress the honest taxpayers." After this pretty compliment he adds that "the corrupt press, under pay from interests, is adopting every means within its command to hinder and prevent the collection of delinquent taxes by the tax commission." Striking a Patrick Henryan attitude he shouts his climax: "What a shameless gang of gold buccaners they are!"

When the pro-German press in the United States sought to justify its disloyalty and propaganda during the war, it charged that the patriotic American newspapers who supported their government were the hirelings of Great Britain. We read about a "paid" British press. Whenever the corrupt political machines in New York city and Chicago are exposed and run to cover by a relentless press, the politicians charge that they are being hounded by bribed and mud-slinging newspapers. Whenever unfaithful demagogues are brought to bay by fearless and resolute journalism, we learn that it is the "kept" press of the interests.

Now the truth is that the hired press is the creation of propagandists; it belongs to them almost exclusively. Anarchists, the I. W. W., the Non-Partisan league and the socialists have their subsidized organs. Every radical movement has its paid agency of publicity. None could live without it. Millions of dollars are contributed annually for the support of publications that have no other object than to exploit the people for the benefit of agitators and destructionists. It is this press and its tools that shriek about a dishonest press, believing or pretending that all must be like themselves.

Governor Blaine only heralds his own political dishonesty when he makes reckless accusations about the press which he knows to be untrue. If there is one institution in America which is beyond the control of money, which "has no price", which is invulnerable to and the terror of demagogues, bosses and political sycophants of every description, it is the independent daily newspaper.

We are afraid that Governor Blaine has worked himself into the class where the "jungle" of any dollar is unclear. His talk about a huge corruption fund with which to perpetrate some mysterious crime against the people is another of his jack-and-the-bean stalk yarns. Mr. Blaine does not like the independent press of Wisconsin because it holds him up to the public for what he is. We have heard the same thing many times from men like Victor Berger, A. C. Townley, Senator LaFollette, et cetera. It is their chief stock in trade, yet enough people are deceived by it to keep the state in a turmoil. Ever since the days when the republic was founded its free and untrammelled press has encountered these storms and tides. One by one they have spent their fury and passed on to oblivion. But the same press remained and survived them all. It knew the difference between a demagogue and a leader, between a brainstorm and true Americanism. If it had not, we should have been in Russia's class years ago.

Dash and Damn
"Shoot and be cursed," a Boston man is said to have replied to a gunman's request "throw up your hands." The intended victim then grabbed the bad man by the throat and held him for the police.
No man of that stamp ever said "Shoot and be cursed." Only the Sat. Eve. Post hero says "It's a dashed cold night."
Remember Admiral Farragut: "Damn the torpedoes!"
When we get too nice to read about a good, healthy damn we ought to be laid away, tenderly wrapped in pink wool.—WORCESTER GAZETTE, (Ind.)
A correspondent asks whether it is right to say: "The man was hung" or "The man was hanged." The modern version is: "The jury disagreed."—AKRON, O., BEACON JOURNAL.

Health Talks

BY WILLIAM BRADY, M. D.
Dr. Brady will answer all signed letters pertaining to health. Writers' names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual case cannot be considered. Address Dr. William Brady, in care of this paper.

SPURIOUS STOMACH TROUBLE
It is not because of any prohibition of medical ethics that I decline to give correspondents remedies for their individual ailments or rather complaints. Our acknowledged public health officers long since demonstrated that no such prohibition applies, for nowadays the public health authorities of state and nation are prescribing indiscriminately and in a wholesale way, and the medical profession scarcely frowns.

It would seem to a layman a simple matter for a doctor, if he would, to "suggest" a simple remedy for a clear case of stomach trouble, dyspepsia or indigestion, especially if the simple layman—1 mean the layman first shows the doctor that the salient features of the case (not to dwell in the maddening word, symptoms) are gas, acidity, this and that item of food disagreeing (whatever that means), and maybe now and then just a touch of biliousness (which brings us far into the dark indeed). Well, maybe.

In a series of 1,000 cases of "stomach trouble" studied by Dr. J. M. Blackford of Seattle, 140 actually had something the matter with the stomach; 340 had disease of some other internal organ; 180 had rather some systemic disease such as tuberculosis, Bright's disease, syphilis, locomotor ataxia, or migraine (there were 16 cases of alcohol stomach trouble in which the condition was really migrainous); that is periodic sick headache moving in with some kind of aura or warning; 250 had no discoverable functional or organic disease at all, but merely represented the protest of nature against ignorance and abuse—the miserable culprit not knowing or obeying the rules of right living; 155 were in reality cases of gall sac inflammation with or without gallstones (it is notorious that this disease commonly masquerades as "stomach trouble" or "indigestion" or "gas attacks"); 130 had already sacrificed the appendix—which prompts the impertinent question: Why let an appendix live?—and 10 per cent of all the women in the group had already submitted, likewise in vain, to pelvic operations.

Why don't I suggest remedies for stomach trouble? Because I like to sleep nights.

QUESTIONS AND ANSWERS
Fe, Fo, Fi, Fum
Is there any truth in the idea that an Englishman's blood is thicker when he arrives in this country and that it becomes thinned out like ours after he has lived here for some time?—(F. S.)
Answer—No, it is his wits, not his blood. It is the climate.

Smallpox Pitting
When a child I had smallpox which left my face marked to this day. I have heard recently that some new invention will remove these horrid pit marks from my face. I am 22 years old and very unhappy. (Miss J. V.)
Answer—I regret I know of no new remedy which will remove the scars of smallpox. A very old and efficient remedy prevents them—vaccination.

"Stomachs," High and Low
Will a woman who has superfluous flesh about the abdomen, vulgarly called a "high stomach," more readily get back her normal figure by wearing corsets or other tight appliances or by going without?—(Mrs. C. A. E.)
Answer—Corsets or other tight appliances merely push the mass inward, upward or downward, so the woman temporarily gets rid of it, to be sure, but this camouflage is bad policy because the muscles grow flabbier and weaker and that rather favors further accumulation of slackish flesh or fat. The way to get back a normal figure or some semblance of it is by omitting all such makeshift appliances and training the muscles by regular exercises to support the body.

Itch
I would be pleased to get from you the symptoms of the itch if you have them. This trouble we have had most of the winter and some men working for us first had it, the winter itch, I suppose.—(W. M.)
Answer—Various communicable diseases, and several that are not communicable, cause itching. The wrong treatment is particularly bad for skin troubles, so I advise you to consult your family physician about it.

TWENTY-FIVE YEARS AGO
Wednesday, April 28, 1897
Eben Rexford of Shuon was registered at the Sherman house.
Charles Wirth left for Colorado where he expected to remain for several months because of the condition of his health.
A son was born to Mr. and Mrs. E. J. Shaylor the day previous.
Mr. and Mrs. P. H. Ryan returned from a several days' visit at Chicago.
W. D. Whorton received a telegram from Los Angeles, Calif., announcing the death of his father, W. G. Whorton.
The salaries of the city officers of Ooshkosh were cut nearly in two at the meeting of the common council the previous evening.
The first quarterly meeting of Fox River Valley Medical association was held at the Sherman house and was attended by 30 physicians.
The Wednesday club met with Mrs. James S. Rees. Mrs. Miller presented a sketch of Rose Terry Cooke, with readings, and Mrs. W. L. Conkey gave pictures of New England life drawn by Mary E. Wilkins.
No. 1 mill of the Marinette & Menominee Paper Co. started up with a full force. All the mills of the company were in operation and were running on manilla. Prices were ruling very low.
Brickmakers at DePere were getting daily orders at prices hardly sufficient to buy fuel for the burning of the brick.
The ladies of Grace church were to hold a 10-cent tea the following afternoon at the home of Mrs. C. H. Wells.
The new officers of the Presbyterian church were John R. Wood, president; James A. Wood, vice president; E. N. Johnson, secretary; R. L. Tietz, financial secretary, and W. P. Tietz, treasurer.

Baseball as Usual
Baseball levels ranks in America. The office boy sits in the bleachers within sight of his boss in the grandstand, and both in critical moments shout aloud the pious hope that violent death will be done to the umpire.
A President and his Cabinet nudge one another in the ribs at the Washington game, even though the New York team which wrestles with the defender of the capital lacks the aid of the great Ruth, sent to the bench for temporarily tainting the national pastime with a touch of super-acquisitiveness.
Baseball is a fine American tonic. It will remain so as long as it is kept straight and clear, and the achievement of the heroes of the diamond and the people see their own ambition for physical prowess attained. The players do for them what they would give almost their all to do if they only could.
The sport ought to live forever as the great American institution. It will if its managers remain vigilant in keeping crookedness out of the diamond.—NEW YORK TRIBUNE (Rep.)

Daily Editorial Digest

(Title Reg. U. S. Pat. Off.)
Resume of American and Foreign Newspaper Opinion

"FATTY" ARBUCKLE'S NEXT TRIAL
With the final verdict of acquittal in the Arbuckle case American newspaper opinion of the whole has little to quarrel. Although there is of course some dissent, the general feeling is expressed by the NEW HAVEN JOURNAL COURIER when it says that "the state has had every instrumentality to convict placed at its disposal but has been unable to prove its case," and, after hearing the evidence through three trials, the "mature judgment" of the people of California coincides with that of the jury which represented them. It must be remembered, the BALTIMORE SUN points out, that Arbuckle "was not on trial for immorality, but for manslaughter," and since the evidence "seemed entirely insufficient to justify" the latter charge, "faith in our native institutions," the ST. PAUL DISPATCH holds, demands that the American public "accept the judgment."

But while that verdict closes the issue as between Roscoe Arbuckle, American citizen, and the state of California, it by no means ends the case of "Fatty" Arbuckle, movie actor, and the American public. And it is the outcome of the trial of this case that the papers are interested in chiefly.

While in the opinion of the DECATUR REVIEW "it isn't worth while to debate the question" of Arbuckle's return to the screen and to popularity, because the facts will be established "long before we could hope to finish the everlasting debate," that discussion, nevertheless, is well under way in editorial columns. By order of Director-General Hays, Arbuckle films slated for immediate release are withheld, but the NEW YORK WORLD quotes a producer as saying that he is confident "that Mr. Hays' request does not mean that Arbuckle would have to retire as a motion picture star."

Why, indeed, should he retire, is a question to the WATERBURY REPUBLICAN, which feels "that a sense of fairness will prevent the people from refusing to accept Arbuckle again as an actor, for, after all, he has been found innocent of the charge brought against him," and "so far from being a disgrace, the REPUBLICAN (Ill.) REPUBLIC adds, "the financiers, lawyers, doctors, editors, merchants, clerks, ball players or bootblacks have been deprived of opportunity to earn a living in the line of their skill because of infractions of the moral and not the criminal code." The public which sets itself up as Arbuckle's judge, in the opinion of the APPLETON (Wis.) POST-CRESCENT, "should do a good deal of social housecleaning on its own part, for it cannot consistently ostracize him for his pictures without lifting its skirts from other filth in the movie world."

But precisely because "Arbuckle is singled out as representative of the debauchery and filth" of the people who comprise that "movie world," the WILKESBARRE RECORD believes that people as a whole should, and will, "make Arbuckle the medium through which they can express their loathing for that kind of conduct." The GRAND RAPIDS PRESS, which proposes to boycott Arbuckle pictures to the extent of "declining to allow them advertising space or news mention," issues a challenge, for "if we must clean up a certain phase of movie life by main strength, let's get about it," since, as the NEW BEDFORD STANFORD says, "this proposal to capitalize infamy proves the hopelessness of expecting the movie interests to institute voluntarily a moral housecleaning." Warning producers of "the fate of the saloon," the NEW YORK TRIBUNE declares that if pictures "are not kept clean they will be suppressed," because they "have come to be the chief amusement of the children."

How Will Hays or anyone else can "elevate the movies by the reinstatement of Arbuckle is more than the average American citizen," or the PITTSBURGH PRESS, "can figure out."

Exhibition of Arbuckle films will constitute a "test of American morals," the PORT WAYNE JOURNAL GAZETTE holds, but the very making of such a test "doesn't pay and compliment to the public." The MILWAUKEE JOURNAL, replies, and the TIMES of the Virginia city really takes the whole matter in deference to the public's sense of decency. "Instead of making a test to see if it has such a sense,"

While the ROANOKE WORLD-NEWS "has faith enough in the American public" to believe that it is not interested in Arbuckle pictures and will refuse to patronize them, this faith is not shared in many other quarters, even in Roanoke itself. For granting that "what the public ought to do and what it will do, are not necessarily 'one and the same thing,'" the TIMES of the Virginia city really takes the whole matter in deference to the public's sense of decency. "Instead of making a test to see if it has such a sense,"

3 Couples Celebrate On Anniversaries

Triple Celebration is Held in Hall at Hampel's Corners Tuesday Night

A triple wedding anniversary was celebrated publicly at Hampel's Corners Tuesday evening when John Schwammer, town chairman of Center, Julius Pfeiffer, county supervisor of road patrolmen, Arnold Schwammer and their wives observed their twenty-fifth, fifteenth and fifth wedding anniversaries, respectively.

The combination silver, crystal and wooden weddings were celebrated in Graceland's hall and the public was invited to take part. A dance was a feature. People were present from Appleton, Grand Chute, Ellington, Black Creek, Stephentown and Center. It is estimated that about 400 people attended.

Graceland's hall has been recently remodeled and the check room has been altered to accommodate the crowds at the dances. The first dance after the alterations was given Sunday evening.

PARTIES

Chaperones for the Rainbow party to be given by Columbian club at Columbia hall on Friday evening will include Mr. and Mrs. R. C. Lowell, Dr. and Mrs. H. P. Hegner, Mr. and Mrs. Stephen Bailett, and Mr. and Mrs. Walter Driscoll. The party is the April number in the monthly series which the club has been giving.

Laura Jane's birthday party will be given at Appleton Women's clubroom Thursday afternoon for members of the T. M. T. club. Miss L. M. Koepke will be the hostess of the afternoon. She and the directors of the club have promised the members a delicious and exciting time which will take them back to the days of their childhood. All girls who have been attending the Thursday afternoon meetings are urged to be present at the party.

A program and box social will be given by the pupils of Sunday View School at Greenville on Friday evening to which the public is invited. Miss Selma Swails is the teacher.

The Elks will give their next dance Tuesday evening, May 2. Music will be furnished by the Valley Country club of Neenah.

Alpha Gamma Phi society will entertain friends at a formal dancing party at Elk hall Saturday evening. Music will be furnished for the party by the Blue Melody Boys of Oshkosh.

Mrs. Louise Lang attended the musicale at Kaukauna given on Sunday evening by the pupils of St. Mary school. She was a guest of Mrs. Joseph Lehrer while in Kaukauna and returned to her home on Monday.

The Equitable Fraternal Union will give a dance for members and their friends Friday evening in South Masonic hall. Music will be furnished by Gibson's orchestra.

LODGE NEWS

The Women's Catholic Order of Foresters will initiate candidates at a meeting in Forester home Wednesday evening. The meeting will be followed by a social hour.

STRING ENSEMBLE TO APPEAR IN RECITAL

The Conservatory String Ensemble will appear in concert at Lawrence Memorial chapel on Tuesday evening. The ensemble will be assisted by several of the conservatory artists including Eleanor Mehl Berger, contralto; Nettie Steinger, Pullinwider, pianist; Ludolph Arens, flutist and Frank Taber, organist. Among the most interesting numbers which the ensemble will play is a group of negro spirituals.

EAGLES MAY BUY LAKE CAMP SITE

Two important matters will be considered at a meeting of Eagles Thursday evening. One concerns an additional story which it is proposed to build on the addition to the clubhouse erected a year ago which will be used for club purposes and the other the purchase of a camping site on the shore of a lake in northern Wisconsin. The members have the purchase of several acres under consideration and if the deal is made cottages will be erected which will be leased to members at a nominal rental. New officers will be nominated at a meeting to be held Wednesday evening.

WEDDINGS

The wedding of Miss Martha Schoenrock, daughter of Herman Schoenrock, 699 Catherine, and Frank Eliek, son of Mr. and Mrs. M. J. Black, 890 State, took place at St. Joseph church at 9 o'clock Wednesday morning. The Rev. Basil Gummertman performed the ceremony. Miss Laura Black and William Schuster attended the couple. A wedding breakfast was served at Hotel Appleton. The young people will make their home on Gilmore-st.

The wedding of Miss Wilhelmina Kasten, daughter of Mr. and Mrs. August Kasten, Appleton, to Albert Schroeder took place at 3 o'clock Wednesday afternoon at Zion Lutheran church. The Rev. Theodore Marth performed the ceremony.

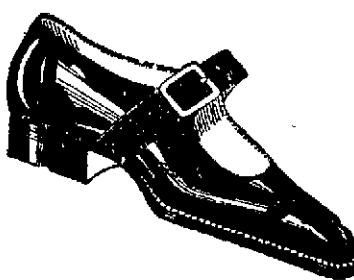

CITY DADS AND C. C. BOSSES IN MEETING

More than 30 people will be present at the dinner in the French room of the Sherman house Wednesday evening when the city fathers will be guests of directors of the chamber of commerce. An informal discussion of city affairs will follow the dinner, with the object of encouraging closer cooperation between the two bodies on all projects for the betterment of Appleton. Mayor Henry Reuter, the aldermen and officials of various city departments will attend.

CLUB MEETINGS

Over the Tea Cups club will meet with Mrs. T. A. Willy at 3 o'clock Friday afternoon. Mrs. Willy lives at 480 College-ave.

Mr. and Mrs. Cornelius Riggles will entertain the Keep-Climbing club of the Baptist church at their home, 537 Hancock-st. on Wednesday evening. This is the regular monthly meeting which was postponed last week. The club has completed its third successful pageant with the presentation of "The Ever Living Christ" on Sunday evening. The Young Men's Bible class assisted with the Sunday program.

Miss Minnie Harp, Pierce-ave., entertained the J. O. M. club at home Tuesday evening. Sewing was enjoyed and dice played. Prizes were awarded to Miss Martha Luccket and Mrs. James Borland.

Post Crescent Newsboy club will hold its regular meeting at 7:30 Thursday night in the Y. M. C. A. Arrangements for a baseball club will be made at the business session.

The newly elected board of directors of Appleton Women's club will meet at the clubroom at 2:30 Friday afternoon. Plans for the coming year will be discussed and appointive positions filled.

Miss Evelyn Brisse entertained the Dice club Tuesday evening. The prizes were won by Miss Anita O'Connor and Miss Genevieve Styvenberg. The next meeting will be held at the home of Mrs. George C. Danne.

The neighborhood club met Tuesday evening with Mrs. Joseph Becker on Emily-st. Schafkopf was played and prizes were awarded to Mrs. Stephen Pfefferle and Mrs. H. Eklund.

LADIES TO BE GUESTS OF HI-Y CLUB BOYS

Members of the Hi-Y club will appear at the regular meeting at 7:30 Wednesday evening in the Y. M. C. A. with white collars, their hair neatly combed and their shoes shined to a sparkle, for this is "ladies night," the first ever held by the club. Most of the youths have dated their best girls for the occasion. Moving pictures and games will be enjoyed. Wallace Marshall is chairman of the committee arranging the program.

TRAIN PASTORS FOR VACATION SCHOOLS

Several vacation schools will be started by workers and pastors who received their training and suggestions at the Church Vacation School Institute held Monday and Tuesday at First Baptist church. Delegates were present from Baptist churches in Oshkosh, Neenah, Winneconne, Omro and Antigo.

The Revs. Charles A. Boyd and R. W. Shaw of Milwaukee took up topics concerning the program, securing workers, stories and story telling. Mrs. A. B. Winne spoke on project methods of teaching and Mrs. A. L. McMillan discussed the organization of the church vacation school. There were two expressional periods in which Mrs. Winne demonstrated map making for children. Mr. Shaw scroll saw work and Mrs. McMillan, basketry.

On Monday evening, the Rev. Mr. Boyd gave a stereopticon lecture on the working plan of the Chicago schools. Appleton had a most successful Community church vacation school last summer with more than 150 children enrolled.

CARD PARTIES

Mrs. Matt Schmidt won the schafkopf prize at the card party given at St. Joseph hall on Tuesday afternoon by the St. Joseph Ladies Aid. Mrs. Katherine Buhz won the plumpack prize. The next party given by this society will take place at the parish hall on Tuesday.

The final open card party of the series given by the Pythian Sisters will be held Monday evening May 1, in Castle hall. Prizes will be awarded and the grand prizes will be given.

The Young Ladies sodality of the Sacred Heart church will give a card party in the school hall at 2:30 Sunday afternoon. Prizes will be awarded for skat, schafkopf and dice.

SPECIAL

Carnations 60c per dozen. Roses \$1.00 and up. Sweet Peas 35c a bunch.—Art Flower Shop. Phone 3012.

LEGION MEN MEET TO PLAN CENSUS

Score of War Veterans Holding Conference in Red Cross Center

A score of former service men from practically every city, village and town in Outagamie-co. will assemble at the local Red Cross center this coming American legion service census.

Legion men from New London, Clintonville and DePere posts also are expected, as they have been asked to cooperate with the county organizers in this census. The New London post may have charge of the survey of New London Third ward, which is in Outagamie-co. The Clintonville post may work from its center into Deer Creek township. That part of Oneida Indian reservation which lies in Outagamie-co. may be covered by Seymour, Kaukauna and DePere posts.

Delegates at Wednesday's meeting will receive instructions as to how the census will be conducted.

INDUSTRIAL ENGINEER TO GIVE LECTURE HERE

J. R. Shea, industrial engineer of the Western Electric Co., Chicago, will give a talk on "Standardization" at 7:30 Friday evening in Appleton Vocational school. The talk will be illustrated with motion pictures. Mr. Shea will discuss standardization in industry and in building. The motion pictures will include general views of the Western Electric Co. Hawthorne plant which the speaker will use to supplement his talk on standardization of building design. Two other films will be used to show the problems involved in establishing and applying standards to the design and manufacture of products.

Michael Gillispie of Green Bay, spent Wednesday in Appleton on business.

Rainbow party at Columbia hall, Friday, April 28. Valley Country Club orchestra of Neenah.

LOCAL TEACHERS ORGANIZE COUNCIL

Organization of Council is Perfected at Meeting of New Teacher Society

The local council of the newly formed Appleton Teachers association was elected Tuesday afternoon at a meeting of the teachers at the high school, called by Miss Carrie E. Morgan, superintendent of schools, who was temporary chairman. Two representatives were elected from each of the following groups: Kindergarten and primary grades, intermediate grades, upper grades, high school, vocational school and supervisors.

Members of the council are Miss Mertie Culbertson and Miss Emma Lynn of the kindergarten and primary grades; Miss Rachel Cody and Miss Lena Carly of the intermediate grades; Mrs. Mary B. Wells and Miss Magdalena Kohl of the upper grades; B. W. Wells and Miss Esther Austin of the high school; James Chadek and Mrs. M. S. Peerenboom of the vocational school; M. H. Small and B. J. Rohan of the supervisors.

First business of the council will be to elect officers of the Teachers association, which will take place within two weeks. Social and educational programs will be arranged for the association at different periods of the school year. Similar organization has been taking place in other Wisconsin cities, the action being necessary in order to have representation on the representative council of the state association. Previously all business was transacted by the teachers as a whole. This method was discarded for the representative form of government.

MARRIAGE LICENSES

Application for license to marry was made Tuesday by Nicholas Dorn and Miss Loretta Schroeder, both of Ellington.

PERSONALS

Raymond Spring of Green Bay, was in Appleton Wednesday on business. Herman Wittman of Manitowoc, is visiting Capt. Fred Heinemann. Fred Kasten of Freedom, is preparing to build an addition to his barn. Masons are at work on the basement wall.

Bride's Pretty Linens Meet With Disaster

By JANE LEE

She spends her months of loving labor in filling her "hope chest" with beautiful linens and lingerie, just as her grandmother did before her. But when grandmother married she made her own laundry soap and her linens lasted nearly a lifetime. The linens of today are as good or better than grandmother's. But the modern wife washes them with common white or yellow laundry bars and buys new linens every year. Her underwear splits and she calls it wear. Her sheets, tablecloths and napkins soon acquire mysterious little holes and she blames the materials or "wear."

The trouble is that women do not realize how destructive laundry soap can be. Fabric makers know that common laundry soaps are only 10 to 15 soap, and the rest of the bar is made up of pasty "filler" without cleaning power—usually pasty water glass. This clings and crystallizes when the clothes dry, and cuts the threads like glass. Other "fillers" simply rot the goods—but the result is the same. So fabric makers wash their materials with olive oil soap and it gives them that cuddly softness, sweetness and snowy whiteness which every woman adores.

Careful women are learning to keep them like this and make them last as long as their grandmother's did, by doing the family wash with pure GREEKY ARROW soap made by The Palmolive Co., and containing—not "filler"—but real olive oil and naphtha.

Like fine castle, this large green laundry bar gets its color from the olive oil—nothing else. This bar goes nearly twice as far as the ordinary because it's all cleaning power, yet mild on clothes and hands.

Day's News of Wisconsin and Outagamie County

ICEHOUSE FALLS AS FLOOD RESULT

Two Business Houses at Shiocton Lose Building and Year's Ice Harvest

Special to The Post-Crescent
Shiocton—Mrs. Charles Spehr returned Sunday from the hospital at Green Bay.

Miss Blanche Reardon of Horton spent her Easter vacation with friends in the village.

Forest Wincensen returned Wednesday from Rice Lake where he has been employed the past winter. He left Friday for Madison.

Mrs. Nishew was taken to Deaconess hospital at Green Bay Thursday. Mr. and Mrs. G. A. Zuehlke and Capt. F. Heilmann of Appleton spent Sunday at the J. N. Wagner home.

Miss Myra Dietzler spent the week end at her home in Bear Creek. F. H. Colburn was in Milwaukee part of the week taking a course of instruction for postmasters.

Miss Marie Leirich of Milwaukee and Mrs. R. C. Roloff of Seymour visited in the village this week. Abner Hendrickson went to New London Friday where he will be employed at the garage.

Mrs. Elinora Anson returned Thursday from an extended visit at Appleton and Hortonville.

Earl Payton returned Tuesday to the university at Madison.

Mrs. George Lonkey was an Appleton visitor this week. Mr. and Mrs. Louis Locke were New London visitors Thursday.

ICEHOUSE COLLAPSES
The icehouse belonging to the meat market and drug store collapsed last week and the entire supply for both places was destroyed. The loss of the building is due to the high water melting the ice in the bottom. The loss will be several hundred dollars.

Ray Peacock has purchased the William Paradise home on Park ave. and has taken possession. Mr. Paradise now occupies the rooms of the William McLaughlin cheese factory north of the village.

The local declamatory contest was held at the high school Thursday evening. Jessie Goe won first place with "The Day Mathilda Voted". Lucille Wilcox won second place with "The Little Rebel". Miss Goe and Miss Wilcox will represent the school in the district contest to be held at Hortonville May 4.

In spite of the flood which filled the basement of the Congregational church on Easter Sunday, services were held, the church being warmed by oil heaters. Eleven young people united with the church. The class included Earl and Tena Payton, Josephine Towne, Harold and Helen Donaldson, Lucille Wilcox, Thelma Delano, Elvira Steede and James Colburn.

BURY ELLINGTON WOMAN
Mrs. William Winslow, 58, a resident of the town of Ellington for many years, died Wednesday morning April 19 at her home after a long illness. Brief services were held in the home Friday morning after which the body was conveyed to Leoman where the Rev. J. Shaw conducted services in the Leoman Methodist church. Burial was in Maine cemetery.

The decedent is survived by the widow and one daughter, Mrs. Douglas Hodgins, Hortonville; one son, Earl Winslow, Chili; three sisters, Mrs. Lida Borden, Pennsylvania; Mrs. Sam Stronk, town of Maine; Mrs. Packard, Stephentown; one brother, Ed Moore, Stephentown.

Ray Middleton returned home Friday after shearing sheep at Trever, Wis., for several months.

Mr. and Mrs. Clyde Fiedick and son Donald of Black Creek were Sunday guests at the home of Roy Sawyer.

Social Items

Kaukauna—Miss Lillian Sager was elected president of the Wana club which was organized Monday evening at a meeting of a group of girls in Mulholland's Tea shop. Miss Helen Dietzler is secretary. Odessa Habnemann is treasurer. The club at present consists of 10 members. Meetings will be held monthly.

The Young Peoples society of Trinity Lutheran church will hold a foot measuring party at 8 o'clock Wednesday in the church basement. Admission will be gained upon payment of a fixed sum for every inch of the length of the guest's shoe. The evening will be spent in social entertainment and refreshments will be served. About 50 members of Odia Chapter, Eastern Star, went to Menasha Tuesday evening where they were guests of the Menasha chapter at dinner and a reception. A get-together and get-acquainted meeting was held.

The Ladies auxiliary to the Knights of Columbus will be entertained at Kimberly Thursday afternoon. The local members will leave Kaukauna from the K. C. rooms on the 2:15 car. Hostesses of the day will be the Misses Doerfler, Mars, Sandover, Verbaton and Ritten, all of Kimberly.

Officers will be installed at a meeting of Kaukauna Elks Thursday evening in Elk hall. Installation was postponed from last meeting. A group of candidates will receive the initiatory degree. A social hour and the monthly "feed" will follow the meeting.

Miss Regina Wolf entertained a number of girls at her home Monday evening. Games and music furnished entertainment. Eight girls were present.

FORMER RESIDENT OF KAUKAUNA DIES

Mrs. Catherine Jaeckels Buried Wednesday — Police Chief's Nephew Dies

Kaukauna—Mrs. Catherine Jaeckels, 54, died Saturday evening at St. Joseph's hospital in Dubuque, Ia. The body was brought to Kaukauna and funeral services were held at 3:30 Wednesday morning from Holy Cross church. Burial was in St. Mary's cemetery.

Mrs. Jaeckels is survived by eight children, John, Kaukauna; Matt, Appleton; Peter, Darboy; Mrs. Mary Hoffman, South Dakota; Mrs. Peter Fereny, Kimberly; Sister Notburga and Sister Felix, St. Agnes Convent, Fond du Lac; the Rev. Martin Jaeckels, Manitowish; 29 grand children and 40 great grandchildren.

Funeral services were held at 3:30 Wednesday morning from Holy Cross church. Burial was in St. Mary's cemetery.

Word has been received by Richard H. McCarty of the death of his nephew, Daniel T. McCarty, of Fort Pierce, Fla. Mr. McCarty died Friday, April 14 and was buried Monday, April 17. He was 42 years old and was the son of a former Kaukauna resident, who is remembered by the old Kaukauna people. He was president of the Fort Pierce Bank and Trust Co. and was the largest independent fruit grower in the state of Florida.

KAUKAUNA PERSONALS
Kaukauna—Mr. and Mrs. A. D. Godfrey were visitors in Fond du Lac Monday.

Mrs. George H. Drewsen returned Monday to Fort Atkinson after a few days visit at the home of Mr. and Mrs. Henry Minkeberg.

Mrs. Martin Van Roy submitted to an operation in a Fond du Lac hospital Tuesday.

The new four cylinder Buick sedan which was presented to the Rev. P. N. Slenbarger by St. Mary's congregation during the silver jubilee held a few months ago, arrived in Kaukauna from Milwaukee Tuesday.

Edward Dolovan suffered a painful injury to his right fore finger Monday at vocational school when it was caught in a machine at which he was working. The nail was torn off and the finger was lacerated.

Completes Contract
Garrit Thorn, who was awarded the contract for building the extension of Atlantic street, trunk sewer completed the work Monday with the exception of a manhole and moved his equipment to Zellars park, where he has 300 feet of sewer to build. He expects to finish the work by May 15.

Miss Ella Malone, who has been visiting friends in California for the last two months, is expected home within the next few days.

TRAINING SCHOOL TO PRESENT PLAY

Rehearsals Have Been Started for Three Act Comedy, "Mary's Millions"

Kaukauna—The graduating class of Outagamie County Training school will present "Mary's Millions" as its annual class play. The date has not yet been selected. The play is a three act comedy in which the action centers around efforts of suitors to capture the fair Mary and her millions.

The following cast of characters has been chosen and rehearsals are under way:

Jack Henderson, to be selected; Jimmie Barnes, James Maher; Ezra Stoneham, Jeffrey McHugh; Abja Boggs, not selected; Count De Selles, E. Obaraka; Mrs. Jane Stoneham, Laura Hawley; Eudora Smith, Frances Huse; Countess Lola De Selles, Viola Brelor; Mrs. Amanda Mudge, Rose Jaekels; Betty Barlowe, Priscilla Gardner; Mary Manners, Sadie Campbell; members of the choir, not selected.

A May ball will be held at Graff hall Tuesday evening, May 2.

A large number of dancers from this community and Little Chute enjoyed a reception at the home of Mr. and Mrs. Henry Probst last Thursday evening.

Mr. and Mrs. Ernest Bergman and sons Edward and August of Black Creek, were guests at the home of Mr. and Mrs. Frank Mechl Sunday.

Martin Verbaton of Kimberly visited here Sunday.

John Van Treek, George Sprangers and Raymond Hopfensperger visited at New London Sunday.

Misses Catherine Mechl and Florence Keating called on friends Friday evening at Appleton.

Miss Mary Grode and Isabelle Wallace were callers at New London Sunday.

A May ball is planned for Thursday, May 15 at Graff hall with Imperial Players of Chilton furnishing the music.

Miss Naoma Hopfensperger of Appleton spent Monday afternoon visiting her parents Mr. and Mrs. W. A. Hopfensperger.

The Darboy Farmers local will hold its next monthly meeting at Graff hall Tuesday evening, May 2.

High School Play
IS FINE COMEDY

Seat Sale for "Clarence" Opens Thursday — Play Friday Evening

Kaukauna—The annual high school senior class play "Clarence" which is to be presented Friday evening in the auditorium is considered one of the best and funniest plays ever offered in this city by a graduating class. Clarence, the hero of the play, who is John Hale, is one of the "five million" who served in the last war although he got no further than Texas. He was an entomologist and found no field for his specialty in this war so they set him driving mules.

After being reduced to civil life, Clarence is one of the millions who must seek a job and he ends up with a position in the home of the wealthy Wheelers. These parts are taken by Mark Griffith and Esther Piepenberg. The play is characterized as a real American comedy.

The seat sale will begin Thursday morning at Brauer's drug store on the north side and at Look's drug store on the south side.

Miss Ella Malone, who has been visiting friends in California for the last two months, is expected home within the next few days.

FARMER'S LEG IS BROKEN BY COLT

Albert Grosnick Is Trampled Upon While Animal Was Being Shod at Dale

Special to The Post-Crescent
Dale—Leona Spiegelberg was given a birthday party by her friends Wednesday, April 19.

Mr. and Mrs. William Van Bussum and children spent Sunday at Sugar Bush.

Mr. and Mrs. Mehlig and daughter of Neenah spent Sunday at George Kiehnbaum's.

Mr. and Mrs. Herman Price and children spent Sunday at Fremont.

The program and box social given at the schoolhouse Friday evening drew a large crowd.

Lila Heuer of Oshkosh visited relatives here Sunday.

Barney Nelson of Kaukauna was a guest of relatives here on Sunday.

Mr. and Mrs. Louis Siebert have moved into the rooms above the Service Motor company garage.

Mr. and Mrs. Owen Peterson and daughters spent Sunday at Shiocton.

Mrs. E. Kuehn spent first of the week at Appleton.

On Saturday Albert Grosnick was trampled on by a colt he was having shod and had both bones in his left leg broken. He was taken to F. Butlinger's home and medical assistance given. Later he was taken to his home southeast of the village.

GAS COMPANY IS SPENDING BIG SUM FOR IMPROVEMENTS

Capacity of Plant is Enlarged and Four Miles of Mains are Being Installed

(Continued From Page 1)

obtainable, kerosene could be used. Most of the oil is shipped from Oklahoma, and the company has about 40,000 gallons on hand for emergencies, such as a strike of railroad employees.

Gas main extensions and replacements for this year will total 13,145 feet for Appleton, 7,760 feet for Neenah and 325 feet for Menasha, or 21,230 feet in all. All of this will be cast iron pipe ranging in diameter from 4 to 10 inches, depending on the consumption demands. New 8-inch mains were installed last year from the plant through Lawest, north. A similar main is to be placed this spring from the plant by way of Water, Jackson, Fourth and Spencer streets, to Mason street and north to Second-ave. The main on Lawest street will be joined by the Second-ave. main, giving a large feeder or booster loop encircling most of the city. A booster pump at the plant will supplement the pressure system at Second-ave, equal to that at the plant, and all pipes connected to these mains will receive a uniform supply of gas. Loss of gas through overpressure at some points also will be avoided.

REPLACE OLD MAINS
Mains also are to be installed or will replace inadequate ones on these streets: Sampson between Pacific and North; Minor from Meade to Rankin; Franklin from Union to Rankin; Hancock from Drew to Balemant; Ida from North to Jeffrie; Winnebago from Durkee to Drew; Commercial from Durkee to Drew; Durkee from Spring to Commercial; Durkee from Summer to Second-ave.; Hancock from Appleton to Durkee; Winnebago from Oneida to Durkee; Commercial from Drew to Superior; Spring from Oneida to Morrison; State from College-ave. to Fifth; Spencer from Mason to Outagamie.

It might be said for these improvements that they are a partial repayment to the people of Appleton, Neenah and Menasha of the increased rates granted the company last fall by the Wisconsin railroad commission. The increased revenue is going right back to the patrons in improved service. It is said that none of this work, nor the huge improvement program achieved during 1921, could have been possible except for the additional revenue.

There is a contention now that gas rates ought to come down because there has been a drop in coal prices and a reduction in coal freight rates. There need be no disappointment if the rates stay where they are for the remainder of this year because the improvement program now in progress will be reflected back to every gas user in better service, officials of the company said.

The public probably will gain in the end if no attempt is made to force rates down now, it was said. The answer of the traction company to a demand for lower tariffs would be a request to the railroad commission to give the company an earning as permitted by law on the valuation based on the money spent for improvements as against the earning based on the plant value before the alterations were made. In other words, the larger capital would entitle the company to a proportionate increase in profits and the commission might even be obliged to raise gas rates a trifle to meet the requirements for profit.

When the traction company has completed all its improvements, which will be within the present year, the railroad commission can go over the whole situation, fix a valuation for the plant and decide what its earnings should be on a basis of capital invested. The rate could be fixed accordingly, and probably would remain uniform for many years, inasmuch as the valuation of the plant will not change materially.

Appleton pays less for gas now than Green Bay, Oshkosh and Fond du Lac, it is said. Green Bay rates were reduced recently by the state commission but still are higher than here. This situation exists despite the fact that \$1 is added here to the Green Bay coal price because of the freight rate from that city. The rate before the reduction ordered by the commission was \$1.35 a ton from Green Bay here.

Electric light rates also may remain at their present figure because operating costs are not coming down and the company is unable to show earnings justifying a cut, especially in view of the expenditure for damage caused by the sleet storms, it was explained. There is a possibility that renewal of certain contracts may result in an increase in costs of producing power.

USE MONEY ORDERS TO IMPROVE MAIL SERVICE

Patron of the postoffice are again reminded of the importance of using postal money orders when sending money through the mails. The custom of many to enclose silver or currency is still causing a great amount of annoyance. Postmaster Gustave Keller announced.

Inasmuch as next week still be postal improvement week, when the postal department to improve the efficiency of the service, the use of money orders, Mr. Keller said, is a good place to begin. The fees are small and orders up to \$100 can be made out, with no limit to the number of such money orders. They cannot be cashed except by the person who receives them, and when lost, the amount will be paid.

Losses are common when cash is sent in the mails and it is practically impossible to ascertain whether they occur at the mailing point, in transit or at the receiving end. People are also cautioned against sending large amounts of stamps in letters, as this too incurs considerable risk.

CONTINUE PROBE OF SCHOOL NURSE NEED IN APPLETON

Nurse Committee Will Obtain Data on Work and Need for Nursing Service

Further investigation of the school nurse needs in Appleton were decided upon at a meeting of a committee on school nurse of Appleton Welfare council Tuesday afternoon. Plans for a more complete and concrete investigation were made after a discussion of findings thus far.

Mrs. G. A. Ritchie was made chairman of a committee to interview the city physician and the school nurse of the First and Second districts to obtain statistics and opinions concerning the needs in the city. Individuals of the committee appointed by the council will interview principals of public and parochial schools, physicians and others concerning the public health nursing situation as they see it. Reports of these interviews will be given at the next meeting of the committee which will be at 2:30 Tuesday, May 9. Further action will probably be taken at that meeting and the general findings of the committee reported at the next conference of the entire welfare council, which is made up of representatives of all the welfare agencies in Appleton.

Hugh Corbett, chairman of the nurse committee, presided at the meeting. The discussion by members of the committee brought out that their desire is for school nurses. The suggestion was made that two nurses be appointed, the one to be in charge of the public health nursing in the city and the other to be her assistant. The second nurse would probably take her into the homes half days. The discussion brought out the need for a careful investigation of the whole situation from every possible angle.

HORTONIA PERSONALS

Special to The Post-Crescent
Hortonia—Misses Elizabeth Crain, Florence Rademacher and Agnes Schuh attended a teachers institute at Appleton Saturday.

Chas. Schultz attended the county board meeting at Appleton last week.

Mr. and Mrs. M. E. McDermott spent Sunday in Mukwonago.

Ovens Cuff was a Fond du Lac business visitor last week.

Mr. and Mrs. Otto Dorshner were Winneconne visitors Sunday.

Lorraine Polzin and William O'Connell of New London spent Sunday evening in the M. E. McDermott home.

Miss Florence Rademacher spent the weekend at her home in DelPer.

Miss Berna Schultz, of the county nurse school Wednesday at Knowledge Hill school.

Mrs. John McHugh spent the weekend with relatives in New London.

VALLEY FILLED WITH RUMORS OF DAMS GOING OUT

No Danger in Future if Dams Stand Present Test, U. S. Engineer Says

A. M. Dier, superintendent of Fox River Improvement said Tuesday if the dams of lower Fox river stand the supreme test to which they have been suspected for the last ten days no fear need be entertained of their going out in the future. He has been on duty night and day during the entire high water period and has had very little opportunity to get any sleep.

All the places between Menasha and Green Bay subjected to the greatest danger have been provided with flash boards banked with sandbags and in several places cinders and crushed stone have been used as filling, he said. At Little Rapids, below Kaukauna, thousands of sandbags piled on top of each other are holding back the water.

Cooperation on the part of manufacturers and the people have made it possible to secure all the empty bags needed. Kimberly-Clark Co. furnished those at Kimberly and Thilmany Pulp and Paper Co. those at Kaukauna. The bags at other places along the river, which include cement, feed flour and gunny sacks came from various sources and were filled with sand purchased from dealers of building material.

Mr. Dier said reports of dams going out were in daily circulation. While on a Green Bay street car Tuesday he overheard one traveling man tell another the Menasha dam gave away that morning and when his companion expressed doubt, the traveling man said he was there when it happened. Mr. Dier had just come from there but said he did not take the trouble to dispute him. His office is kept busy denying reports that start in that way, he said.

PARK COMMITTEE TO MEET TONIGHT

A meeting of the executive committee in charge of the campaign to raise \$15,000 in Appleton for North-ern Lakes park will be held Wednesday evening to make plans for the drive which is scheduled for the second week in May. Several meetings have been held to discuss details of the work.

Stunt drives are being held in many cities and several have reached their quotas. About \$200,000 is required to purchase the huge park which is to be turned over to the state as a state reserve.

ALUMNI PLAN FOR COLLEGE JUBILEE

Exhibit of "Ye Olde Time College" To be Feature of Commencement

An exhibit of "Ye olde time college" is to be one of the features of alumni day, June 6, at Lawrence during the seventy-fifth anniversary jubilee, according to plans made at a meeting of resident alumni in the college library Tuesday evening. W. S. Ford was appointed chairman of the committee to work out the details of the exhibit which probably will contain pictures from as far back as possible, copies of old magazines and books, and perhaps even costumes of former college days.

Mrs. S. C. Rosebush was chairman of a meeting at which plans were made for the picnic luncheon at which the resident alumni are hosts to the visiting alumni. Arrangements also were made for the meeting of the alumni association when the new class is received into the association. Various committees were appointed to take charge of the events of the day.

Because all the Lawrence students will be here during the commencement exercises this year, visiting alumni will have to be placed at the homes of alumni and friends of the college in the city. A chairman of the housing committee will be appointed soon and will make arrangements for the guests.

BURNETT FIRST COUNTY TO ADOPT NEW SYSTEM

Madison—One county in Wisconsin, Burnett, voted at its April election, to adopt the county commission form of government, taking advantage of the Summerville law enacted by the 1921 legislature. This will be the first county in the state to be governed by commission. Polk and Rusk counties, at the same election, voted down the proposal.

Cleon Larson, who has been visiting Appleton relatives for several days, has returned to Chicago. Mr. and Mrs. August Brandt left for Chicago Tuesday on a several days' visit.

THE MODERN MOTHER

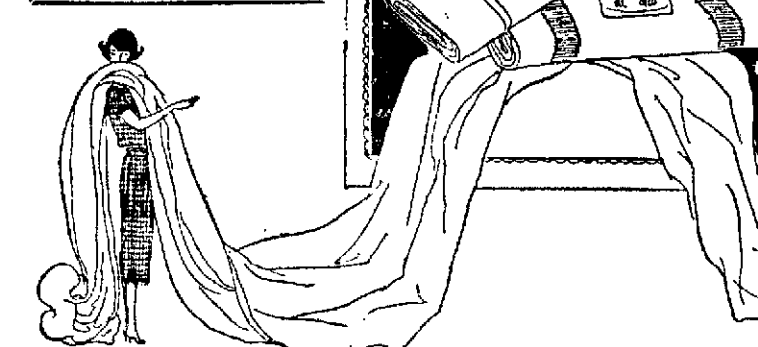

faces problems far beyond those of her forbears. She herself must be a much more competent person, combining in one individual the duties of nurse, cook, teacher and moral instructor. It is no wonder that many conscientious women break under the strain, and that others find a most miserable existence; always tired and yet unable to take a day's vacation. Such women will find themselves benefited and their burdens made easier by the use of Lydia E. Pinkham's Vegetable Compound, which was made for suffering women, and does not fail to relieve them.

SPECIAL PURCHASE OF MANUFACTURERS' ENTIRE SURPLUS STOCK

Women's Coats
Extreme
Values 16.75

High Grade Suits and Coats

Women's Suits,
Big
Savings 25.00

Savings Worth Coming Miles to Share

While our selling season is hardly started the manufacturers' season is over, and they are now working on Fall merchandise.

One of the countries leading makers of women's finer Suits and Coats, from whom we buy thousands of dollars worth of regular merchandise, wired us that they were ready to dispose of all surplus stocks at a great sacrifice.

Our buyers hurried to market and secured these choice "plums" at surprising low prices. The Suits and Coats are being unpacked and marked as this ad is being written, and the writer, who writes from a merchandising experience of fifteen years, never, in the past five years, saw such values, so early in the season. The best materials, the most desirable styles, the finest

linings and highest class workmanship are embodied in these Suits and Coats. They are garments that we can recommend and guarantee to our best friends and customers.

That's the story in a nutshell. But to realize just what this sale means to you, right at the beginning of the season—right when such Suits and Coats are in greatest demand, you must come in and see the garments, try them on. Then, and only then, will you know, as we know now, that the savings we shall present in this sale are incomparable.

In addition to this big special purchase, we have marked many Suits and Coats from our regular stocks at proportionate savings. Sale starts tomorrow, come, share and save.

Coat Styles—

Only the very latest styles are shown in this sale, including the becoming "Wrappy" modes. Many are trimmed with silk braids, fancy buttons and silk tassels. Every garment is a high class model.

Coat Materials—

The materials are such as never enter into any but the best Coats: Normandy, Pandora, Veldyne, Gerona, Poirer Twill, Tricotine, etc. The linings are of rich looking, plain or fancy satins.

Every Reduction Genuine; Every Item a Big Feature

TAX DODGER CAN'T EVADE ASSESSORS UNDER RECENT LAW

Personal Property, if Moved
May 1, Will be Assessed
Wherever Located

Tax dodgers who have followed the old scheme of moving their personal property out of the assessors' way on the first of May will be foiled in their tactics from now on, through a law passed by the state legislature in 1919, John A. Lonsdorf, assessor of income and supervisor of assessors, says.

"One scheme that tax dodgers have used to their advantage and the prejudice of the remainder was to see that personal property was in transit on the first of May," Mr. Lonsdorf declares. "Since it had no situs on that date it was, so to speak, left out in the cold, and escaped taxation. A law was passed to remedy this situation."

The clause in the tax law reads: All personal property shall be assessed in the assessment district where the same is located or customarily kept except as otherwise specifically provided. Personal property in transit within the state on the first day of May shall be assessed in the district in which the same is intended to be kept or located and personal property having no fixed location shall be assessed in the district where the owner or person in charge or possession thereof resides.

"Some people also seem to believe assessing officers have the power to raise taxes, but they have the wrong impression," the county official says. "Assessing officers of the state, including the tax commissioner, supervisors of assessors, assessors and board of review have no power to raise a cent of taxes. Taxes are voted by school boards, school meetings, town meetings, town boards, city councils, county boards and state legislatures. These bodies determine the amount that shall be spent for schools and roads, streets, parks and general government."

"In other words, if no taxes were levied or voted we would need no assessors. The duty of the assessors is to spread the taxes, which are voted by others, over the shoulders of all the property owners equally and justly and on the basis of 100 cents on the dollar as the law provides. Should any property owner escape assessment, as in the cases mentioned above, his taxes would be lower but the taxes for the rest of us would be higher. We would have to pay the taxes of the tax dodger as well as our own."

UNCLE SAM SEEKING MORE TRAINED NURSES

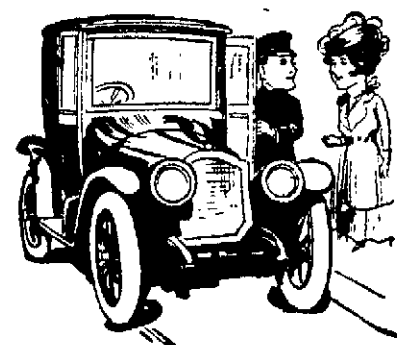

About 50 vacancies in positions for trained nurses exist in the government Indian service, according to H. J. French, secretary of the local civil service board. Mr. French has been informed by the United States civil service commission that examinations for trained nurses in various branches will be held until further notice. Places and dates of examination will be furnished by him on application. While the present supply is not equal to the demand, Mr. French said, there is a constant call for positions in the veterans bureau and the public health service. The positions in the government Indian service pay \$440 a year plus the increase granted by congress of \$20 a month. In addition quarters, heat, light and laundry of uniforms is furnished free, and meals at cost.

Abandon Horse Raising On Outagamie County Farms

Outagamie co. is breeding very few horses according to Dr. J. R. Huhn, Black Creek veterinarian, who was in Appleton Monday. He said farmers were directing all their attention to pure bred dairy cattle and swine to the detriment of horses which will always hold a place on every farm in spite of the popularity of tractors. "Horses have become scarce in consequence," said the veterinarian, "and unlike cattle and swine have held their own as to price. Not long ago a cow was worth as much as a horse, but you can now buy two cows for the price of the average horse. You hear nothing about the organization of county associations for the breeding of horses."

HERE IS PLAN FOR GREETING TOURISTS

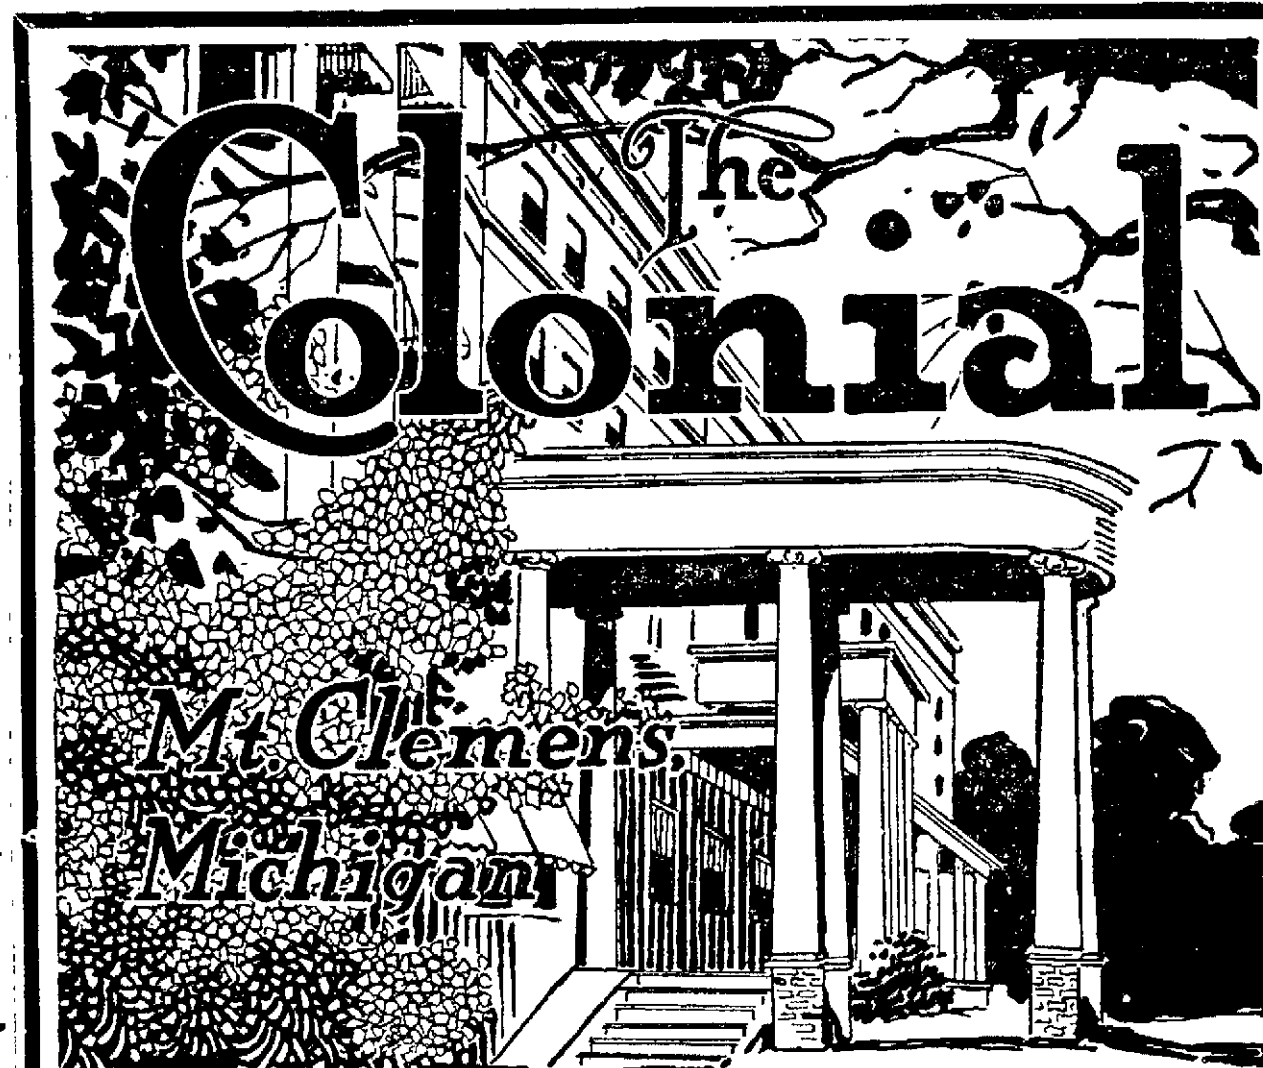

Appleton Interested in Scheme
Adopted by San Francisco Boosters

San Francisco's plan of welcoming and entertaining the tourist has attracted the attention of Appleton. The chamber of commerce and it is possible that something of a similar nature may be adopted here, now that the autoing season has opened.

Each member of the San Francisco chamber pledges himself to devote at least three half days each year to this duty of welcoming and entertaining the visitor. Every group of tourists that enters the city by automobile, or those who come on trains are met and their destination learned. The information is communicated to the good fellowship committee and some member assigned to the entertaining task. Special courtesies are shown the traveler and he is not allowed to leave without having an adequate knowledge of the city's resources and advantages. The person assigned as host usually takes the visitor on a tour of the city and may have him as a guest at luncheon. Business men who visit the city usually are placed with residents who are in the same line.

\$26,744.223 AVAILABLE
FOR 1922 ROAD WORK

Madison—Wisconsin highways have \$26,744.223 available from all sources for construction work. A. R. Hirst, state highway engineer, announced Monday. Most of this amount is from Federal and state aid, county appropriations and bond issues. The entire amount may not be spent unless especially advantageous use is found for it, Hirst said.

The Gateway to Health

THE benefits of the baths and treatments, the charm of pleasant surroundings and the delights of varied recreations are yours to enjoy at the Colonial Hotel.

It is this happy combination that proves so richly advantageous to our guests, whether they come for rest or relief.

In the treatment of rheumatism, blood and skin diseases, stomach disorders, nervous and run-down conditions, the Mt. Clemens waters are wonderfully beneficial—equal to any in the world. The favorable results of the new colon treatment are attracting wide attention. The Colonial's bath, laboratory and other equipment is the best in the city.

If ill, come to the Colonial and take the baths and treatments under the direction of the most eminent staff of physicians in this section. You should how improve-

ment within a few days after your arrival. But plan to stay at least six weeks—to obtain lasting benefits.

If you are well and want to keep well—if you just need rest—come to the Colonial and enjoy luxurious comfort and pleasant diversion. Highest class of service is maintained all year 'round.

All sports in season. Healthful hikes in the bracing air. Motor rides on the boulevards and country highways. Excellent 18-hole golf course.

Detroit, with its theatres, shops and places of interest, is just 20 miles away. Fast interurban cars for Detroit pass the hotel door.

You'll enjoy every meal here. The fame of our food and cooking brings motor parties from miles away to dine at the Colonial.

This month is a good time to come to The Colonial
Rates \$5.50 per day and up, including rooms and meals

Our booklet informs you about the hotel, baths, treatments, etc. Send for your copy. Address The Colonial Hotel, Mt. Clemens, Michigan, W. W. Wilt, Mgr.

24 YEARS SINCE CO. G BOYS LEFT TO FIGHT SPAIN

Orders to Entrain Arrived Here
Early on the Morning of
April 28, 1898

Friday, April 28, will be the twenty-fourth anniversary of the departure of Company G, H. E. Pomroy, in command, for the Spanish-American war. At the last meeting of the C. O. Baer Camp of Spanish-American war veterans it was decided to hold no celebration this year, but to give an elaborate one on the twenty-fifth anniversary.

An order for the company to entrain was received by Col. Pomroy, then captain of the company, at 2 o'clock in the morning. It had been expected for several days and its receipt was announced by the blowing of whistles and the ringing of bells. People were astir almost instantly and by daylight the army was crowded with soldiers in uniform and with their relatives and friends.

The company took a special train at 7:45 a. m. for Camp Harvey, Milwaukee. By that time the streets were crowded and it was impossible for the soldiers to get to the depot. Bands and drum corps filled the air with stirring music and gifts of all kinds were showered upon the boys.

The company remained at Camp Harvey for several weeks and then went to Chickamauga. From there it journeyed to Charleston, S. C., and embarked for Porto Rico to fight the Spaniards. It landed in Ponce in Porto Rico and was there only a short time when it was ordered into service. A battle with the Spaniards had just started when word was received that peace had been arranged. It returned early in the fall and was given an elaborate reception.

Mrs. Clark McDonald, who has been visiting her parents, Mr. and Mrs. Michael Wagner, for the last two weeks, returned home to Omaha, Neb., Tuesday.

First to establish the \$10.90 price—"Usco"

THE makers of U. S. Tires made this announcement last November—

"Hereafter the price of the 30x3 1/2 'Usco' is \$10.90."

The lowest price ever quoted on a tire of quality reputation and standard performance.

And now, with the opening of Spring, there seem to be quite a number of "New and Special tires" coming into the market in the \$10.90 price range.

Perhaps you are wondering just what there can be either "new" or "special" about these tires.

It can't be the \$10.90 price—"Usco" established that five months ago.

Nor quality reputation and standard performance—for it takes more than one full season for any new tire to demonstrate where it stands in quality and value.

With so many tires rushing into this \$10.90 price

Dr. Louis C. Baker Says Europe
Is Rapidly Recovering
from War

By Louis Fischer
Apparent lack of war traces in France, Belgium's speedy resurrection from the war ruins and a noticeable tendency of European peoples to undervalue America's part in the great conflict, were some of the impressions gained by Dr. Louis C. Baker, professor of modern languages at Lawrence college, who returned Monday from two years' leave of absence in Europe.
Dr. Baker studied at the University of Montpellier and traveled extensively through France, Italy, England, Belgium, Holland, Switzerland and Germany. He arrived in New York April 14 on the Steamer Providence.
Other observations made by the professor during his stay abroad were: Dissatisfaction of Alsatians and the people of Lorraine under French rule; a feeling of apathy on the part of the French to the Geneva economic conference; a reaction in Germany toward the low rate of exchange of the German mark in America.

SAW FEW CRIPPLES
"I expected to see a country torn by war," said Dr. Baker, commenting on his first impressions on landing in France. "I expected to see many cripples on the streets. But to my casual observer there was a lack of all evidence of recent war. I saw men in abundance and very few cripples. From the exterior view, the country had readjusted itself to peace conditions."

"France has not the labor trouble that England has," he continued. "By that I mean, the employment situation does not harass it as it does England, for France does not play a very important part in industry."

"France has been and still is an agricultural country. The methods of farming are of course very old fashioned and the French peasants are very conservative. Land is parcelled out in small lots. Cultivation on large scales is impossible. They haven't acquired the intensive cultivation of the Belgians and Germans."

"The people hope to improve the agricultural situation by means of the potash which they acquired in Alsace. But these mines have not been producing much in the last few years, because the government is in a mud-hole as to whether the mines should be state property or whether they should be under private control. The matter still is in the courts and meanwhile the mines are idle and Germany is shipping in potash cheaper than it can be produced in France."

BEGGARS IN ENGLAND
Dr. Baker was in England during the coal strike last year and again shortly after the strike. "I saw more begging in London streets than in Paris," he said. "The unemployment situation was just beginning to develop."

"In England the price of living has gone down considerably. But in France it remains about what it was two years ago. Then the American dollar was worth from 15 to 18 francs, but since February it has been from 10 to 11 francs. There has been no corresponding decrease in living costs. The French used to go across the border into the Rhineland and buy their goods cheaper in Germany than at home."

Belgium is perhaps rising quickest of all devastated countries, according to the Lawrence professor. "They were but little devastated. Brussels remains quite unchanged. The pictures in the museum are the same as displayed before the war. In industry Belgium has reached 90 to 95 per cent of her pre-war production."

The feeling toward Germany, Dr. Baker believes, is changing in various countries with the exception of France which intends to force payment of German reparations. But in Italy German commercial relations have been resumed on a fairly large scale.

DON'T LIKE FRENCH
Questioned as to the attitude of the Alsatians toward the new government, Dr. Baker replied: "They are dissatisfied. In conversation with a number of intelligent Alsatians I gathered that the French regime is quite unsatisfactory. Particularly the attitude of the French government toward the armistice on the question of French language and administration seems not to satisfy. What Alsatians and the people of Lorraine hoped for was independence such as Poland, Estonia, and Latvia now have. They feel themselves a distinct people. They claim the right to be independent because of distinct national traditions. The German language is spoken by from 70 to 80 per cent of the people. Independence for an Alsatian republic is being openly agitated, although it is suppressed by the French. There is a strong undercurrent there."

CORDIAL FEELING
"Feeling toward the Americans in Germany was quite cordial even before the peace treaty was signed," said Dr. Baker. "But since the termination of the low mark, the Germans are planning some means by which to protect themselves. They will try in some way to equalize the value of money. The Americans will perhaps be charged higher prices for goods. They feel that American speculation is forcing the rise of prices."

"The feeling in other countries toward America is not so much a feeling of gratitude as Americans expect. There seems to be a tendency on the part of many people in allied countries to think that America did not play as important a part as Americans think they did."

VALLEY LUTHERANS REELECT VOECKES

Scope and Membership of Athletic Body Is to Be Enlarged for Next Year

Herbert Voeckes of this city was re-elected president of the Fox River Valley Lutheran basketball league at the closing banquet of the season at New London Monday night. The league voted to change the name to the Fox River Valley Lutheran Athletic association.

Now London's basketball team of Emanuel Lutheran church tendered the players of the valley the dinner in honor of winning the championship in the winter tournament. The pennant was presented New London players by Mr. Voeckes for the league. The Rev. A. Spiering acted as toastmaster and talks were given by several of the players.

Other officers elected were: Arthur Krueger, New London, vice president; Melvin Wolfarth, New London, secretary-treasurer.
Enlargement of the scope of the league and the addition of young people's societies of other Lutheran churches was the reason for changing the association's name. The intention is to organize baseball, tennis and other leagues as well as the basketball organization maintained for several years.

No society need enter teams in the tournaments in order to be a member of the association. All valley Lutheran societies will be asked to join. The committee which will confer with each society is composed of Arthur Krueger and Melvin Wolfarth, New London, and Elmer Rehben, Appleton.

St. Paul and Mount Olive Evangelical Lutheran churches of this city were represented at the banquet, and delegates also were present from St. Peter church, Fond du Lac.

MUST KNOW HUMAN NATURE TO SUCCEED

"To know human nature is one of the most necessary elements of success," said John Strange of Newburg, in talking to Lawrence college students on success during the chapel hour Wednesday. "Then seek good companionship and guard sacredly your good name. No one can afford to ignore what the world will say. If you live a good life as measured by the opinion of your neighbor and the world you have nothing to fear. Do all you can for humanity but do not let humanity do you."

Mr. Strange told of the various successful men that he had known, including Patrick who is still at his bath but has a family and his good name and is perhaps the most successful man whom he knows. He mentioned incidentally the need for stability in government and ridiculed the governor of a state who would go on speaking tours talking against corporations which make a community possible. He also told the students that he was not in favor of legislation which keeps a boy from work until he has become a loafer.

HOLD SALESMAN AT ST. LOUIS; SOLD EMPLOYER'S CAR

William Staninger Will Be
Brought Here for Trial on
Milwaukee Complaint

Detective John Duvall left Wednesday for St. Louis, Mo., to bring William Staninger, a salesman, back to Appleton. Staninger was arrested at the request of Chief T. Prim on a warrant issued by P. L. J. Crill, Milwaukee, the man's former employer and is charged with obtaining money under false representations.

Staninger was employed last fall as a salesman for Creasey Corporation, Milwaukee, of which Mr. Crill is the head. He left the company's employ and made an accounting for everything but a Ford sedan which he had been given the use of. This automobile was sold to J. Alva Carter of this city and was identified by Mr. Crill recently as the one formerly used by Staninger. Mr. Carter returned the car to the Milwaukee firm when he found that the sale was fraudulent and a warrant then was issued for Staninger's arrest.

Staninger was traced to his former home at Mount Carmel, Ill., and then to St. Louis, where he was employed by Brit-Mawin Mercantile Co. He will be tried there.

WANT STATE POULTRY MEETINGS NEXT YEAR

An effort is to be made at the meeting of Fox River Valley Poultry and Pet Stock association at George Lonsdale's shop on Appleton-st. at 7:30 Wednesday evening to secure the state meet of the Plymouth Rock Breeders association and White Wyandotte Breeders association for the next annual poultry show. If successful it will mean 500 additional birds from all over the state will be exhibited at the next poultry show.

Practice Games
Indoor basketball teams of the Appleton Women's club will hold a practice game Wednesday night. The teams expect to get into fighting shape for their game with the T. M. C. A. indoor team of Green Bay soon.

Mrs. Edward Westphal of L'Anse-au-Loup, in Appleton, called here by the illness of her mother.

AMERICA MAY TAKE PART IN PARLEY

New Plan to Stabilize Exchange
to be Presented at World
Conference

(Continued From Page 1)
can be done to stabilize and thus prevent marked fluctuations especially with the certainty of a big international loan which will take care of the obligations of Germany.

PREVENT FLUCTUATIONS
Inasmuch as the governments themselves will be parties to the making of the big loan, they must consider the effect on exchange and act accordingly. The bank of England and the banks of the other countries engaged on the allied side in the war acted together to prevent exchange fluctuations during the war and something of the same sort is expected now that an approach is being made to the financing of the greatest reconstruction era in world history. The announcement by J. P. Morgan that he has accepted the invitation of the reparations commission to discuss the chances of selling in America an international loan to Germany is one of a number of coincident steps which are former foes. Mr. Morgan communicated with the department of state where no objection was interposed to his acceptance of the invitation extended him by the reparations commission. Later on undoubtedly the United States government will have an official representative on the commission.

Mr. Morgan goes in an unofficial capacity representing only his private interests but his word and judgment will count for a good deal in foreign councils. If J. P. Morgan believes a German loan can be floated, provided it is guaranteed or endorsed by several of the allied and associated powers, the formation of an American Banking group probably be encouraged and the moral support of the United States government here has no legal right to object to the loan of foreign loans in America but the private bankers have agreed to obtain the department of state's acquiescence before committing themselves to the sale of foreign government bonds.

AUTO DEALERS OF VALLEY ORGANIZE AT MEETING HERE

Association is Formed to Further
Interests of Dealers
and Buyers

Fox River Valley Automobile Dealers association held a meeting in the French room of the Sherman house Tuesday evening at which articles of organization and bylaws were adopted. The business session was preceded by a dinner at 6:30 and representatives were present from Appleton, Kaukauna, Neenah and Menasha.

The object of organization mainly is for the purpose of engaging in such activities as will elevate the ethics and promote the best interest of the industry, bearing in mind at all times the interest of the car buyer. The main subject of discussion at the meeting concerned the sale of used cars. Realizing manufacturers have built up their reputation on the merit of their product, members of the association intend to build up a similar reputation and confidence in used cars buyers by giving value received in used cars.

It is believed the used car buying public will have more confidence if dealers follow this principle. Seventy-five per cent of the automobile business is now said to concern used cars.

ROTARIANS TO ATTEND NEW LONDON GATHERING

Appleton Rotary club will send a large delegation of its members to New London to attend the ceremonies by which the Rotary club has organized at that city will be affiliated with the national Rotary organization. George R. Wetzel, as special representative of the district governor, will have charge of the event.

There is to be a supper at 6:30 and the formal acceptance of the club will be followed by a grant centennial program. A larger gathering is to be held later, when the national charter is received. Clubs all through central Wisconsin will be present at that event.

COUNCIL TO NAME CLEANUP WEEK AT ITS NEXT MEETING

Citywide Movement Has Been
Started to Have City Pay
for Hauling Rubbish

Appleton's official "Cleanup Week" will be designated by the common council when it meets on Wednesday evening, May 3. It has been suggested that the week beginning May 8 be officially declared the cleanup period.

The city beautiful department of Appleton Women's club already has started a pick it up campaign among the school children which, it is expected, will result in improving the appearance of the city. The official cleanup week, however, will be more for the purpose of clearing up debris in back yards and along curbs.

The street storms which destroyed branches on hundreds of trees left an unsightly mess in Appleton which must be cleaned away soon. The council probably will be asked to finance the hauling away of this debris and of other material that has been collected during the winter.

There is said to be a well defined movement in Appleton toward removal of ashes, tin cans and that sort of rubbish at the expense of the city. This is done in many cities and results in cleaner and neater places than if the work is left to each individual. Some times it is rather hard to find men with teams who have time to haul away the rubbish.

Appleton merchants, it is said, will cooperate in a cleanup and paintup campaign. The cost of paints has been reduced and it is said that a systematic drive at this time will result in widespread painting of buildings to save their surfaces and improve the "looks" of the city.

Committee to Meet
An organization meeting of the public and convention committee of the chamber of commerce has been called by Louis Bonini, chairman, for 3:30 Thursday afternoon. The program for the coming year will be discussed.

GIFTED WOMAN TO GIVE MISSION TALK

Miss Stella Tuthill Will Address
Congregational Audience
Thursday

Miss Stella Tuthill, Evanston, Ill., a woman of wealth and culture and a fascinating speaker, will address the mission school of the First Congregational church at the second of the series of five sessions Thursday evening. The regular courses will be taken up in the three classes at 7:30 and the speaker will appear at 8:15.

Miss Tuthill has been a world traveler, and in her journeys in India and China last year with her father visited in remote places. She will give her impression of missions from the traveler's viewpoint, describing many of the scenes which were of a special interest to her.

The speaker formerly was a social settlement worker in the Chicago slums, especially in the Italian district and served with the Chicago council of defense during part of the war. She then went to France, where one year was spent in reconstruction work with the Smith college unit.

BIJOU BUILDING

BEGIN HERE TODAY

A series of mysterious accidents in the lumber mill left him by his father on the condition that he maintain a high output, has convinced BARRY HOUSTON that his superintendent.

THAYER, is guilty of sabotage. Motoring from Boston to the timber lands in Colorado, Houston's automobile plunges over a cliff a few miles from Tabernacle, where the mill is located.

Houston is nursed back to health by BASTISTE RENAUD, an eccentric but whole-hearted French-Canadian who became a trapper following the tragedy of his son's death in France, and the unsolved murder of his wife. In Bastiste's cabin, Houston meets

MEDIANE ROBINETTE, a girl of twenty who owns adjoining timber land. Bastiste agrees to assist Houston and they decide to investigate a mysterious telegram which caused Houston's trip from Boston.

GO ON WITH THE STORY

"Is there ever a time when the operator isn't there?"

"At noon. He goes out to dinner, and he leaves open the door. If it is something you want, walk in."

"Thanks." A strange eagerness was in Houston's eyes. "I think I'll be able to get up tomorrow. Maybe I can walk over there."

CHAPTER IV

"Bon—good," came from Bastiste, as they turned into the little village of Tabernacle the next day. "Bon—the agent is leaving."

"You walk as though going into the station to Josef. Bastiste will come behind and keep watch."

Barry obeyed. A moment more and he was within the converted box car. Houston turned hastily toward the file hook and began to turn the pages of the original copy which hung there.

Suddenly he bent forward and examined a notation in a strange hand: "Missent Houston. Resent Blackburn."

It explained much to Barry Houston, that scribble of four words. It told him why he had received a telegram which meant nothing to him, yet caused suspicion enough for a two-thousand mile trip.

J. C. Blackburn.

Deal Building, Chicago, Ill.

His friend reports Boston deal put over O. K. Everything safe. Suggest start preparations for operations in time compete Boston for the big thing. Have Boston where we want him and will keep him there.

THAYER, railing, and muttering to Bastiste, led him away from the station.

The giant traced out the words. He looked up sharply.

"Boston? You came from Boston?"

"Yes. It must mean that Thayer's been running my mill down, to help along some competitor. You'll notice that he says he has me where he wants me."

"Oui—yes. But has he? What was the deal?"

"I don't know." Suddenly Houston frowned with presentment. "Thayer's been going with Mediane a good deal, hasn't he?"

"Oui—yes. When Ba'teste can think of no way to keep him from it."

"I couldn't be that he's made some arrangement with her—about her forest lands?"

"But Ba'teste would have heard of it," came the repetition. "No, eet is something else. Ba'teste will try to learn who eet is, this Blackburn."

They parted. Bastiste to lounge back into the tiny town. Houston to take the winding road which led back to the cabin.

He glanced ahead and noticed the trim figure of Mediane Robinette swinging along the road, old Lost Wing trailing in her rear, astride a called airy. If she heard him, she would be riding. She had not seen him, and Barry hurried toward her, jamming his cap into a pocket that his hand might be free to greet her. He waved airy as they came closer and called loudly. But she heard him, she gave no indication. Instead, she turned swiftly. Houston thought—and mounted her horse. A moment later she trotted past him, and again he greeted her, to be answered by a nod and a slight movement of the lips. But the eyes had been averted. Barry could see that the thinnest veneer of politeness had shielded something else as she spoke to him—an expression of distaste, of dislike, almost loathing!

It was thus that old friends had passed him by in Boston; it was thus that men who had been glad to borrow money from him in other days had looked the other way when the clouds had come. A strange chill went over him.

"Thayer's told her!"

He spoke the sentence like a man repeating the words of an execution. His features suddenly had grown haggard. He stumbled slightly as he made the next rise in the road and went on slowly, silently, toward the cabin.

There Bastiste found him, slumped on the bench, staring out at the white and rose pinks of Mount Taluchen, yet seeing none of it.

"You worry, huh? Ba'teste help. There are men at the boarding house."

"The Blackburn crowd?"

"So. Seven carpenters, and others. They work for Blackburn. They are here to build a mill."

"On Mediane's land then?" But Bastiste shook his head.

"No. Eet is on the five acres own by Jerry Martin. Eet is no good—rocks and rocks—and rocks. They build eet there."

Bastiste shook his head.

"I can't see it. I have the only timber around here with the excep-

tion of Mediane's land, and you say that she doesn't come into that until next year. I've never made a cruise of the territory around here."

"What you know about lumber?"

"Not more than any office man could learn in a year and a half."

"Then we shall learn. Tomorrow we shall go. Perhaps Ba'teste can tell you much. Bien! We shall take Mediane, oui? Yes?"

"Why not?"

"I'd rather—Houston was thinking of a curt nod and averted eyes. "Maybe we'd better just go alone, Ba'tiste."

"Tres Bien. We shall go into the forest. We shall learn much."

CHAPTER V

The road narrowed to a mere trail; Bastiste tugged on the reins, and motioning to Barry, left the wagon, pulling forth an axe and heavy cross-cut as he did so. Bastiste stopped and motioned toward a tall spruce.

The axe gleamed in blow after blow. A deep incision appeared in the trunk of the tree, and at the base of it Bastiste started the saw. Barry working on the other end with his good arm.

"Look out!"

A crackling sound had come from above. Bastiste abandoned the saw, and with one great leap caught Houston and pulled him far to one side, as with a rear, the spruce seemed to veritably disintegrate, its trunk

spreading in great splintered slabs, and the tree proper crashing to the ground in the opposite direction which it should have fallen, breaking as it came.

A moment Bastiste stood, with his arm still about the younger man, waiting for the dead branches, severed from other trees, to cease falling, and the disturbed needles and dust of the forest to settle.

"Eet break up like and ice jam," came at last. That tree, he is not made of wood. He is of glass."

Barry joined him, studying the splintered fragments of the spruce, suddenly to bend forward in wonderment.

"That's queer. Here's a railroad spike driven clear into the heart."

"Huh? What's that?" Bastiste bent beside him to examine the rusty spike, then hurried to a minute examination of the rest of the tree. "And another," came at last. "And more."

Four heavy spikes had revealed themselves now, each jutting forth at a place where the tree had split. Bastiste straightened.

"Ah, oui! Eet is no wonder! See? The spike, they have been in the tree for mebbe one, two, three year. And the tree, he is not strong. When the winter come, last year, he split inside from the frost, where the spike, he spread the grain."

"But why the spikes?"

"Wait! Ba'teste, suddenly serious, turned away into the woods, to go slowly from tree to tree, to dig at them with his knife. "I have four' another."

"The spike, they are all in this little section," he said finally. "I have traced 'em all about here—there are no more."

"But why should trees grow spikes?"

"Ah, Why? So that saws will break at the right time! Eet is easy for the iron hunter at the mill to look the other way—eef he knows what the boss want. Eet is easy for the sawyer to step out of the way while the blade is a spike."

A long whistle traveled over Houston's lips. This was the explanation of broken saws, just at the crucial moment!

"Simple, isn't it?" he asked caustically. "Whenever it's necessary for an 'accident' to happen, merely send out into the woods for a load of timber from a certain place."

"I've seen enough, Bastiste. I'm going to Denver and contract myself an entirely new crew."

They drove in silence to the clearing of Barry's mill, with its hunk house, its diminutive commissary. Houston leaped from wagon but at the door of the commissary he whirled, staring. A buggy was just coming over the brow of the little hill which led to the mill property. Someone had called to him—a woman whose voice had caused him to start, then, a second later, to go running forward.

Agnes Gordon was beside Thayer in the buggy, leaning forth, one hand extended as Barry hurried toward her, her black eyes flashing eagerness, her full, yet cold lips parted, her olive-skinned cheeks enlivened by a flush of excitement as Houston came to her.

"Agnes," he gasped. "Why did you—"

"I thought—and the drawing voice of Fred Thayer had a sudden-

sobering effect on Houston, "that you wouldn't hurt very bad. Your memory came back awful quick, didn't it?"

(Continued in Our Next Issue)

GREEN BAY OPPOSED TO DAYLIGHT SAVING PLAN

Green Bay helped defeat daylight saving for the Fox River Valley this summer when the plan was voted down about 5 to 1 in a referendum conducted by the association of commerce of that city. The results were furnished Secretary Hugh G. Corbett here by letter in response to an inquiry concerning the adoption of the movement in Green Bay. Most of the disapproval came from the laboring people and farmers.

STOP HANDSHAKING;
SPREADS DISEASE

New York Health Commissioner
Says Wilson Made Ill by
Shaking Hands

By Edward M. Thiery
New York — "Handshakes spread disease; shaking hands should be abolished," says Dr. Royal S. Copeland, health commissioner of New York.

"Shaking hands is a filthy habit," he says. "It's meant as a friendly salutation, but most of the time it's entirely mechanical. We all shake hands, but we'd all be healthier if we stopped it."

Germ carried by the hands may be the greatest cause of influenza, says the "Lancet," London medical journal, which suggests some such substitute for shaking hands as the military salute.

People in public life are all victims of handshaking, Copeland points out; if not actually in infection then in fatigue.

"Wilson's long illness was certainly partly due to the fatigue of handshaking," says one physician. "Taft grew thinner in office. Roosevelt felt the strain in spite of his powerful physique. Harding now is the most prominent victim of the handshake. Entirely aside from infection and fatigue, it was a handshake—concealing a gun—that killed McKinley."

Death statistics in New York are quoted by Health Commissioner Copeland to show the dangerous potentialities in handshaking.

"At least 30 per cent of all the fatal diseases could be spread by handshaking," he says. "Germ on the hands might easily be responsible for all respiratory diseases, which caused more than 21,000 out of the 73,000 deaths in New York last year."

Here are the figures, in round numbers:

Pneumonia	10,000
Tuberculosis of the lungs	6,000
Influenza	3,500
Bronchitis	1,000
Colds, tonsillitis, etc.	1,000

To these Dr. Copeland adds, as possible results of handshaking contagion, 1,000 diphtheria deaths, 700 measles, 500 whooping cough, 200 scarlet fever and 100 spinal meningitis—making a grand total of 24,000.

Adventures Of
The Twins

Land of Good Smells

Buskins took the Twins on more journeys to the Land of Up in the Air by means of the Apple-Tree elevator, for their mother decided that Nick had learned a lesson and had been punished enough. It was with great joy that the children climbed up to their secret gain in the playhouse under the branches of the old apple tree. Indeed it was there Buskins found them one morning, looking over so puzzled about something.

"What is it, my dears?" he asked, appearing suddenly in the air.

"We were wondering where the smells go to," said Nick. "The apple blossoms are gone and the orchard doesn't smell sweet like it used to."

"We know where the pink petals went—they fell on the ground, and dried up—but where did the lovely smell go?"

"Why, don't you know?" answered the fairyman. "The smells go up like smoke, to the Land of Up in the Air. And they all turn into fairies and have a good time, particularly the smells of nice things."

"Would you like to take a trip with me to the Land of Good Smells?" To tell you the truth, it's what I came to ask you about, for the fairies they are having a party today and told me to invite you. I have the invitation in my pocket.

With that the fairyman handed out a neatly folded caramel wrapper on which was written:

"The Fairies of the Land of Good Smells."

Desire the pleasure of Mistress Nancy's and Master Nick's company. At a party on Tuesday.

At any time it is convenient."

Nancy read the invitation aloud, then said quickly, "We can't go this way. We've been making mud pies, and we're all dirty."

"Oh, tush!" said Buskins. "They are right in their line. 'They'll never know the difference.'"

Aged Mission
Worker Spends
Life In North

New York—Dr. S. Hall Young will spend the rest of his life in exile in Alaska—for the sake of a cause.

The Presbyterian Board of Missions will make him superintendent of all the board's Alaskan work.

Dr. Young was one of the original sky pilots in that wilderness but of late years has been associated with the Board of Home Missions at its New York headquarters.

Dr. Young is 75 years of age, but full of vigor.

He says he means to stay in Alaska, work among the people, travel from mission station to mission station, and die in the harness.

A SCRAMBLED ROYAL ROMANCE

It was generally expected that the betrothal of the Prince of Wales to Lady Rachel Cavendish would be announced upon his return to England. However, a report that emanates from a source close to the royal house holds that the engagement of the Duke of York, the crown prince's brother (above), to Lady Rachel and of the Prince of Wales to Lady Mary Cambridge (left), his first cousin, will be announced soon.

OUR FIRST YEAR

Chapter 18 — The Wife and the Office

By a Bride

START THIS TODAY

Marriage should have no shackles, in the opinion of Jack and his bride. They're trying out the theory. Now she's about to help him in business employing her social talents.

And now I have made Jack late to the office two mornings in succession. I'm terribly sorry because Jack hates it so. He's punctual by nature, never too early, never too late at any engagement.

Unfortunately, there's a staff meeting in the office this morning. And the "boss" has a horrible habit of pointing out (to individuals for reprimand and making them feel like small boys) late to school.

This morning he pointed a forefinger straight at Jack when he walked in eight minutes after 9 o'clock. And he fairly scolded out.

"Late again, Madison! You were late yesterday! Why? Explain!"

And after storming so that almost everybody turned around to see how Jack took it, the "boss" went right on with business and never gave Jack a chance to say a single word.

Perfectly maddening!

And it was my fault that Jack had to endure this humiliation. But he didn't tell me about it. Jessie Long, she said. She had lunch with her husband down town and then she phoned me.

"I thought you ought to know," she said. "So you can get the poor boy off earlier in the morning."

"So sweet of you to tell me, dear! Jack never would!" I answered. As I hung up the receiver I was reminded of what Jack often had said: that business and society mix about as well as oil and water.

I think Jack is wrong. I think a wife can help a husband wonderfully by being friendly with the office. But

Jack insists that he doesn't like cliques, and that just as soon as the wives get friendly the cliques are sure to form and create jealousies and rivalries.

I'm hoping it won't happen in our case. For Jessie Langdon added in invitation to her phone talk. Or rather she said that she called me to invite me to a morning budge. It's a progressive party from 10 to 12 with breakfast at noon.

A brand new idea in this town. I think I'll give one. I want to go to Jessie's to meet the wife of Jack's "boss." I am convinced it will be a good thing for Jack if I am on friendly terms with Mrs. Boss.

I'm happy because I have my lovely pearl beads to set off my black crepe when I go to the morning bridge. But I came close to losing them the other day on a street car. Across from me I noticed a strange looking man, dark, thin, a foreigner, was watching me. He was rude and was annoyed.

In the crowd on the platform I was left the car this man stood close to me. As I stepped out he was higher than I am at the moment. I thought I felt a touch of warm fingers on the back of my neck.

I shiver when I think of it! I put my hand suddenly to my collar and my precious beads—uncolored and in a heap into my palm!

I'd weep if I lost those silly beads bought with the first money my husband gave me.

I took them to the nearest jeweler. The clerk said the clasp was all right. He suggested that somebody had tried to steal them, and we laughed together.

Who would risk committing a crime for a string of false pearls?

(To Be Continued)

Fish Sauces

RAIN broiled or boiled fish served with a special sauce makes an acceptable change from fish baked and stuffed or a mode fish dish.

Certain sauces usually accompany certain fish. An egg sauce is served with boiled fish, mustard sauce with broiled herring, parsley sauce with salmon, spinach sauce with broiled cod steaks, and drawn butter sauce with any broiled or boiled fish.

EGG SAUCE

One cup water, 2 tablespoons butter, 1 1/2 tablespoons flour, 1 teaspoon salt, 1/8 teaspoon pepper, 1 teaspoon lemon juice, 2 hard boiled eggs.

Melt butter, stir in flour and cook two minutes, stirring constantly. The water may be hot when added to first mixture. Add slowly, stirring constantly. Bring to the boiling point and add salt and pepper and lemon juice. Have the whites of the eggs cut in small dice and pour over sauce. Make very hot and pour over fish. Rub yolks through a fine sieve over top of sauce and serve.

SPINACH SAUCE

Two cups spinach, 1 tablespoon cream, 1 dessertspoon lemon juice, 2 eggs (yolks), salt and pepper.

Wash and pick over spinach. There should be two cups after cleaning. Pound this spinach with a wooden potato masher and rub through a fine sieve. Put this spinach with cream, lemon juice, salt and pepper and yolks of eggs in a smooth saucepan. Whisk briskly over the fire till light and frothy. Serve at once.

Another green sauce is made with spinach and served cold.

PARSLEY SAUCE

One cup water, 2 tablespoons butter, 1 1/2 tablespoons flour, 1 table spoon minced parsley, 1 teaspoon salt, 1/8 teaspoon pepper.

Melt butter, stir in flour and cook for two minutes. Add water slowly and cook until mixture boils. Boil gently for five minutes season with salt and pepper and add parsley. Do not let sauce boil after parsley is added.

MUSTARD SAUCE

One teaspoon mustard, 1 dessertspoon flour, 2 tablespoons butter, 1 1/2 cup boiling water, 1 teaspoon vinegar. Mix flour and mustard and rub to a smooth paste with butter. Stir in the boiling water and boil for five minutes stirring constantly. Add vinegar and serve.

Household
Hints

PERFUME

Women in Arabia perfume their bodies by reclining over hot coals on which have been sprinkled myrrh and spices.

WASH CLOTHES

It is not enough that wash clothes be merely washed. They should be boiled once a week to destroy all germs.

HAIR

Comb the hair with a lead comb will darken the hair and subdue the color of red hair.

BLISTERS

Touching with a bit of cotton saturated with spirits of camphor, or rubbing gently with alum or borax, will help to drive fever blisters away.

LEARN A WORD
EVERY DAY

Today's word is ENVIRONS. It's pronounced—en-veer-uns, with accent on the second syllable. It means—suburbs, outlying towns, the districts surrounding a city.

It comes from—French "environ," about.

It's used like this—"It is pleasant to live in the environs of a great city, in the center of the business district."

IF YOU ARE WELL BRED

You will sit erect and not lounge back at the table. You will when not using your knife and fork, rest them wholly on your plate.

You will place food in your mouth as soon as it is lifted from the plate, never holding it in midair.

Joseph Lehman of Waupaca veteran home, a former resident of Outagamie Co. is visiting relatives and friends here.

FURS AND MYSTERY

By

A. CARSTENSEN
Appleton's Furrier

It would be difficult to estimate the amount of money now spent on furs, but that amount will be enormous just so long as people go haphazardly about their buying.

What do you suppose becomes of the millions of rabbit skins—one dealer in New Jersey advertised for 10 million—which are cured, treated and dyed? Have some of them been turned into the coat of seal you or one of your friends may be wearing? Equally possible—and deplorable—some furriers and other dealers with the thought of long profits uppermost, have so skillfully manipulated the pelt of the common everyday rabbit and then with such subtle simulations in their selling talk the customer was dispatched on her way, believing she was wearing a stole or cape of ermine when it really the bunny again played the principal role.

A few years ago when wild animal furs were more abundant, or when the demand for them was smaller, there was no market for the rabbit skin. It is not a strong skin, it tears easily. Two years of not too careful use would make a rabbit skin coat not worth the moth balls that preserved it from one year to another.

Insist on knowing if the article is a genuine original, or, if sold under a "trade name" what animal is used to imitate another which brought about the use of the "trade name."

Then get a statement in black and white verifying the answers for it is well to know.

Reverse of the Wolf in Sheep's Clothing.

Kaukauna Motor Car Co. Garage, stock and equipment for sale or rent. Inquire Martin Van Roy, Kaukauna, Wis.

New Party Dresses Make
Them Look Like Flowers

Once I saw a children's play in which each little girl was dressed to represent a flower, and at the call of spring, each little flower rose up and joined her sisters in a mad dance of joy. It was very pretty, but no prettier than the lovely party dresses which are being worn at the "formal" dancing parties and junior proms this year. The bright colors of the little tulle dresses make each ballroom a thing for delightful contemplation.

With their short skirts, many of them made in imitation of the petals of flowers, the skimpy little bodices and tiny, tiny sleeves, the girls look for all the world like the little girls of the flower play. And then, many of the girls add to the youthful effect with bobbed hair and you cannot for the life of you tell at a party, whether a miss is of high school or college age.

What colors, you say? They wear every tint and hue that you could fancy. But the favorites? Well, for the blondes, the favorite seems to be units of jade green and for the brunettes, there is the soft yellow which shades into pink. Then there is also flame color and the tints of orchid and fuchsia and just everything else.

Judging from the dresses one guesses that is the favorite of the spring at least, though other silks are being used. Only occasionally does one see a dark dress that is of the softer silks, lace or perhaps of velvet. Touches of black and brown are used to set off the freshness of the flower dresses.

And the men too have changed their apparel at formal somewhat. Many of the younger men have discarded their long tailed formal coats for the more becoming and more comfortable tuxedos.

John Hilgers of Colby, is calling on Appleton friends.

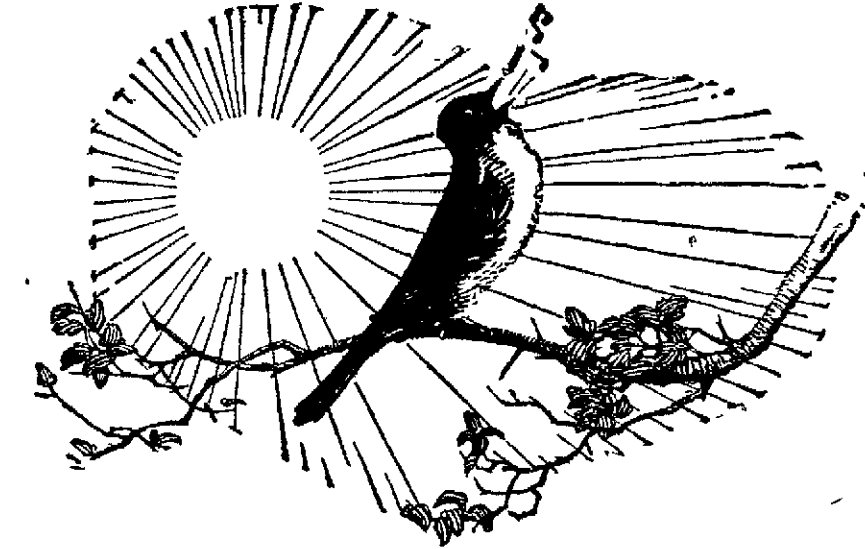

SHARP DECREASE IN
MOTORCYCLE LICENSES

Madison—The speedy "squat" motor-cycle, "king of the road" is losing its popularity. It won't be "king" much longer.

Licenses for only 3,000 have been taken out so far this year in Wisconsin. Last year around 5,000 were numbered in the census of licenses.

More than 251,000 auto licenses have been issued this year by the secretary of state's department, about the same number as was issued at this time last year.

Nineteen thousand of the licenses have been for trucks. The truck total last year was 21,000 and this mark is expected to be exceeded before this year is finished.

Spring calls to you!

Sunshine and shower here again
Growth and health in all the great outdoors

Nature's way!

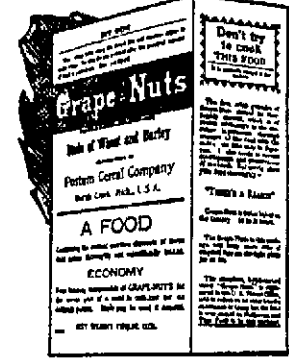

And here's a food bringing Nature's gift of health and energy—saying to appetite, "Come along!" GRAPE-NUTS, the perfected, delicious goodness of whole wheat flour and malted barley.

Taste delights in the wonderful crispness and flavor of Grape-Nuts—rich, sweet and satisfying. Digestion welcomes the relief from the heavy, cloying diet of winter months. Strength and energy result from its well-rounded nourishment.

Let the call of the season come in to you.

Leave off heavier foods and make Grape-Nuts a regular dish for breakfast or lunch or supper; add fresh fruit if you wish. Set out Grape-Nuts whenever the children come in, hungry, from play.

Ready to serve right from the package, with cream or good milk; not a moment to wait.

Never a food more appetizing than Grape-Nuts, nor a combination of grains so completely and splendidly nourishing.

Order from your grocer today!

WHAT IT DOES FOR ONE'S FACE

- It closes pores that are large.
- It draws out the blackheads and pimples that seem so hopeless.
- It draws out the yellow and sallow look that seems so impossible.
- It destroys freckles forever.
- It refines coarse grained and over-oily skin.
- It destroys brown patches and liver spots.
- It tightens loose and flabby skin.
- It tightens eye lines and sagging faces.
- It removes scars and pock marks.
- It removes white heads and the warty growth so often seen around the eyes.
- It removes VACCINATION SCARS.

APPLETON BASEBALL SEASON OPENS NEXT SUNDAY

Brandt Aggregation To Meet Fast New London Team On Local Ball Lot

Local Players to Hold Practice Sessions This Week in Preparation for Opening Game of Year.

No more dull Sundays for Appleton baseball fans this season.

The 1922 season in this city will be officially opened next Sunday at Brandt park when the Appleton Valley league club meets the strong New London team and from then on the local aggregation will be in action on the first day of every week until October, unless old Jupiter Plusis steps in now and then and gums things up with a rain storm.

PLAYERS TO PRACTICE

Members of the Appleton club will hold two or three sessions of practice this week in preparation for Sunday's tilt and the players will be in shape to put in a real game of baseball. The New London team is strong this year. New London fans claim their club is faster than the aggregation that represented their city in the Fox River Valley league last season. The team will be accompanied to Appleton by a large delegation of fans who expect to see their favorites put over a victory.

One week from Sunday the Appleton team will clash with the Oshkosh Valley league club in Oshkosh in a practice contest and two weeks from Sunday the Menasha team will come here for a regularly scheduled game in the Fox River Valley league flag race.

SHEBOYGAN BARRED

Valley league officials have taken action against players who jumped their contracts with clubs in the circuit to play with the Sheboygan President. Klum has sent out an order forbidding any Valley league club playing exhibition games with any baseball team harboring or playing a player who has breached his contract with any members of the Fox River Valley league.

Turn On Spotlight

MR. AND MRS. RICHARD W. (RUBE) MARQUARD

Rube Marquard is once more in the limelight. Rube somehow manages to keep in front of the calcium.

Last winter Rube was traded by Cincinnati to Boston for Pitcher Jim Scott. It now turns out that Scott has a bad arm and Cincinnati seeks to call of the deal.

Marquard got away to a good start with Boston, expects a big year and

says he much prefers pitching in Boston to Cincinnati. He doesn't tell why.

Rube's latest bid for fame has Mrs. Marquard as the inspiration. Rube's better half is a very beautiful woman and he wants the world to know it.

That is why it was a very easy matter to get him to pose for the above picture.

Horseshoe Pitching To Be "Major Sport" Here

All over the city people are asking each other "What's all this talk of a horseshoe pitching tournament about. Where do they get that stuff about a city tournament and courts and prizes?"

Here is the how and why of it:

Within the next ten days or two weeks horseshoe pitching courts will be established in every vacant lot and place in Appleton that is big enough to accommodate a court and convenient of access. The work will be done by the sporting department of Appleton Post-Crescent which is eager to devotees of the game can help out by suggesting places for these courts. A space about 50 feet long and 8 feet wide is required for each court and it should be easy of access. If you know of any place where courts can be established and where arrangements can be made for use of the lot or stump you will help the game along by notifying the sports editor of the Post-Crescent before Tuesday of next week.

Get in the game now and help us make horseshoe pitching a regular sport this summer.

WILLIAMS SLUGS SIXTH HOME RUN

Passes Babe Ruth's Record to Date as Browns Defeat Tigers, 5 to 3

St. Louis—Hitting his sixth home run in four days, Kenneth Williams on Tuesday surpassed Babe Ruth's record at this time last year, and with three hits out of three times at bat, enabled St. Louis to beat Detroit by a score of 5 to 3.

Score: St. Louis 5, Detroit 3.

Batteries: Sheap, Jannard and Snyder; Meadows, Smith and Henline.

ROBINSON DEFEAT BRUES
Boston—Ruth's pitching and hitting were largely responsible for Brooklyn's defeating Boston here Tuesday by a score of 3 to 2.

Score: Brooklyn 3, Boston 2.

Batteries: Reuther and Miller; Rudolph, Watson, Oeschger and Gowdy.

YANKS BLANK MACKS
New York—The New York Americans won their seventh straight game here Tuesday, defeating Philadelphia 5 to 0.

Score: Philadelphia 0, New York 5.

Batteries: Taylor, Yarrison and Perkins; Shawkey and Schaub.

SENATORS TRIM RED SOX
Washington—Washington knocked two Boston pitchers off the slab Tuesday and won 10 to 0.

Score: Boston 0, Washington 10.

Batteries: Russell, Collins, Ferguson and Ruel; Phillips and Gharney.

When You Score A Ball Game

REMEMBER—

A double play shall mean any two continuous put outs that take place between the time the ball leaves the pitcher's hands until it is returned to him again, standing in the pitcher's box.

Honolulu—Because Duke Kahanamoku, world's champion swimmer, allowed a letter from him to advertise varnish for surf boards, the Hawaiian A. A. has been asked by the American A. A. U. to declare him a professional.

ELMER SANDERS MEETS SAVAGE HERE WEDNESDAY

Two Great Heavyweight Grapplers to Wrestle in Armory G Arena

Elmer Sanders of Ashland, heavyweight champion wrestler of Wisconsin, and Steve Savage of Chicago, one of the greatest grapplers in the world, are ready for their finish match Wednesday night in Armory G arena. The men arrived in Appleton Wednesday morning. Each declared he is in condition for a gruelling struggle and both are confident of victory.

Savage and Sanders will meet in the main event of a wrestling show to be staged by the Mid West Athletic club. Elmer Johnston, matchmaker for the club, has arranged a card of high class preliminaries and the fans will be given an evening of splendid entertainment. Ladies will be admitted free. The first preliminary will start at 8 o'clock and the main event is scheduled to get underway an hour later.

Savage and Sanders appear to be evenly matched. They are both fast, clever and aggressive. Savage must win to keep in the running for a chance at the world's title now held by Strangler Lewis and Sanders is anxious to put over a victory in order that he may gain the recognition of the top notchers of the wrestling game.

The men will go the best two out of three falls under Police Gazette rules with the struggle held under Barney Rhodes of Green Bay will referee.

Watching The Scoreboard

Yesterday's hero, Kenneth Williams Brown outfielder hit his sixth homer in four days and two singles beating the Tigers 5 to 3.

Frank Baker did his old stuff by hitting a homer with two on and starting a rally that gave the Yanks a 6 to 0 victory over the Athletics. It was Shawkey's second straight shutout and the Yanks third in straight games.

Walter Reuther hit a homer and a single and pitched faultlessly, the Robins beating the Braves, 5 to 2.

George Kelly hit his second homer of the season in the ninth inning but the Giants had clinched the game, leading the Phils, 9 to 3.

The Senators knocked Russell and Collins out of the box and beat the Red Sox, 10 to 0.

New York—Tex Rickard returned from a trip to Bermuda and announced that he would resume his activities at Madison Square garden. He wants a Tunney Greb lightweight championship bout for May 26.

New York—Strangler Lewis, wrestler, defeated Stanislaus Zbyszko here Tuesday night.

SULPHUR IS BEST TO CLEAR UP UGLY, BROKEN OUT SKIN

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Mentho Sulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation.

Mentho-Sulphur breaks eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Mentho Sulphur may be obtained at any drug store. It is used like cold cream.

Kansas City—Strangler Lewis, wrestler, defeated Stanislaus Zbyszko here Tuesday night.

EIGHT TEAMS JOIN FACTORY LEAGUE

Baseball Wheel of Industrial Plants is Organized Monday Evening

Eight teams were signed for this year's Industrial Baseball league at a meeting of representatives of ten

plants in the Y. M. C. A. Monday evening. Games are to begin May 20. The schedule is being arranged by the schedule committee and will be announced in about two weeks.

The firm which will have teams in the league are Tuttle Press, Meyer Press, Appleton Woolen Mills, Northern Boiler Works, Kimberly-Clark Co., Combined Locks Paper Co., Valley Iron Works and Fox River Paper Co. The Spalding ball was adopted.

Rules bylaws and other league details will be completed at a meeting of the team representatives which is to be held Monday evening of the coming week at the Y. M. C. A.

MILWAUKEE AUTHORITY WARS ON BASEBALL POOLS

By United Press Licensed Wire

Milwaukee—District Attorney W. C. Zabel has started war on Milwaukee "baseball pools."

Two such pools have already been brought to his attention and the operators have been questioned and warned against continuing them.

The district attorney announced any more brought to his attention would be prosecuted.

Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

AUTO DEALERS IN 'CERTAIN COUNTY' RESTRAIN TRADE

State to Prosecute Organization on Charge of Forming Combination

Madison — Thirty-nine motor car dealers of a "certain county" in Wisconsin were declared to be associated together in illegal restraint of trade in an opinion given by Attorney General William J. Morgan to Special Investigator G. F. Clifford.

The 39 dealers, controlling all the leading makes, are associated together in a corporation, the purpose of which is declared to be "to collect reliable trade information and disseminate it among the members."

The bylaws provide for expulsion on a majority vote of the members.

The attorney general's opinion authorized Clifford to commence action in the name of the state against the combination, the location of which is not named.

Nine of these county organizations are now in existence in Wisconsin. It is understood that the one against which the state will open prosecution was beginning an attempt at organizing a state combination.

The alleged combination described in the above dispatch does not exist in the organization of Appleton automobile dealers according to men familiar with that association. It has fewer than 39 members and it was organized carefully with a view of avoiding any conflict with laws which regulate elimination of competition. It is known, however, that G. F. Clifford and another representative of the attorney general's office was in Appleton some weeks ago obtaining information about several organizations here.

FOND DU LAC TO HAVE FARM CENTER

Plan "Union Depot" for Automobile Trade Territory in Center of City

Fond du Lac—Fond du Lac stepped into the lead in the "farm and city" movement Tuesday night when at a "farmer and businessman's dinner" at Hotel Calumet initial steps were taken for a "farm center" in the heart of the city's business district.

The motion of President M. Flammings, of the association of commerce, seconded by Charles L. Hill, leading Guernsey breeder, of Rosendale, a committee was named to investigate and report on the feasibility of purchasing the Commercial bank building or some similar structure. The plan is to make the "center" a "union depot" for the automobile trade territory, a meeting place for farmers' families, a shopping center and medium of exchange. The plan was presented by C. W. Keves, treasurer of the state and county farm bureau and met instant favor and promises of substantial financial support.

SMALL TRIAL MAY LAST TWO MONTHS

Waukegan, Ill. — A new venue of 100 was on hand here Wednesday for examination in efforts to get a jury to try Governor Leo Small. Predictions that the trial may last two or three months are being made freely by counsel for both sides.

Assertions were made Wednesday by counsel that from the facts brought out during the last two days of examination of witnesses, a majority of the voters of Lake county have sided with the governor within their own minds and have fixed opinions as to his guilt or innocence.

ALL UNION COAL MINERS REMAIN OUT ON STRIKE

Charlestown, W. Va. — The coal strike is still 100 per cent effective in the union fields and 80,000 accessions to the United Mine Workers have been received since the town began in the mountain fields of West Virginia and Tennessee. John L. Lewis, president of the United Mine Workers, said here Wednesday.

CROSBY STEAMERS

Milwaukee-Muskegon

DAILY sailings beginning May 1st. Express passenger and freight service. Autos carried; baggage checked. Good Meals.

From Milwaukee—Muskegon \$4 Milwaukee—Grand Rapids \$5

Prepare for Tennis
First steps toward opening the Y. M. C. A. tennis season will be taken Wednesday evening when the tennis committee will hold a meeting. Tournament plans will be discussed and arrangements made to place the courts in playing condition.

Go To Depere
Several members of the chamber of commerce expect to go to Depere Wednesday evening at the invitation of Depere Civic association to attend the banquet at which the value of the Great Lakes-St. Lawrence waterway to the Fox River valley will be discussed.

T. W. Jackson of Milwaukee is visiting relatives here.
F. C. Tilly of Omo is in the city on business.

DEATHS

LEMKE FUNERAL
The funeral of Mrs. Fred Lemke of Ellington was held from her home at 2 o'clock Tuesday afternoon and at 2:30 from the Lutheran church at Stephenville. Services were conducted by the Rev. E. Redlin.

The HOOVER

It BEATS... as it Sweeps as it Cleans

The Hoover is guaranteed to prolong the life of rugs.

Don't Endure "Bare Floors" This Spring

Save the usual cost of having your rugs and carpets cleaned; invest the money in a Hoover. Dustlessly, quickly, easily, it will beat, sweep, suction clean, brighten the colors and straighten up the nap of your carpetings, right on the floors; no tearing up; no heavy furniture to move; no carpetless floors for weeks; no backaches! Ever after enjoy thoroughly cleaned rugs every week in the year; your rugs will last years longer, too. Also you can dust dustlessly with Hoover air suction attachments. See a demonstration here in the store.

Saturday's Close 9 A. M.

Jane Goes A Shopping

Gingham Week always reminds one that Spring is well on the way. This week is also the scene of many housecleanings, which makes the Neponset Sale all the more important. And, by the way, are you housecleaning this year with a Hoover? If you hadn't thought of it, our demonstrator will be glad to show you some points on one of your own rugs.

The Possibilities of Gingham

This week introduces gingham as one of the most versatile fabrics in the world. Of course, we are also showing a wider and more novel range of patterns than ever before too.

One piece that comes in soft colored backgrounds has a narrow checked design that seems made for the kiddies' clothes.

Then there are lovely tissue gingham in light patterns combining three pale shades, a material that makes up beautifully in dresses.

In the big cities, decorators are strongly advocating gingham for certain draperies. Imagine a sunny bedroom window curtained in a gayly checked gingham. It goes without saying that such curtains would always launder fresh and crisp.

Soft French gingham are now being made up into delightful undergarments. The first floor displays are full of ideas.

Speaking of Your Windows

By now you have a mental picture of the windows you would like to have this summer. It is simply a matter of proper draping, you know.

The drapery workroom on the third floor is making some charming curtains for a number of Appleton homes. Not only are there new materials to see in this department, but books of interesting suggestions about warm weather windows.

If you desire, our men can come up and measure your windows, the new draperies can be made here and then be properly hung by our experts. The result is complete satisfaction.

Real Filet and Cluny Laces

Real filet and Cluny do have a forbiddingly expensive sound, don't they? But these pieces are lovely, they ARE real, and you see the prices—

There are the prettiest medallions, in every shape and a large variety of patterns. The price is governed by the size, but very usable ones are as low as 7c and 8c each.

Handmade Irish lace is shown in a quaint narrow edging at 30c a yard. An elaborate pattern, two inches wide is only \$2 a yard.

Filet edging in a beautiful rose design is 90c a yard and the insertion is 75c. An exquisite narrow filet is only 20c a yard. This section has some new embroidered batiste and organdies.

—First Floor

Donegal Capes for Spring

Sure, and they're Irish. Real Donegal, blankets, woven in the old country and made into capes in this.

You have heard of these richly patterned weaves, with a soft woolly texture and the characteristic fringe. They are made with a smart collar idea.

There are light or dark color effects. The price is but \$39.50. —Second Floor

More Gingham

Gingham undies are the very newest thing, not a craze but very dainty and practical undergarments that are also unusual. Chemise of soft French gingham are shown in blue, rose and orchid. \$2.50.

Teddie Bonkers of a dotted silk material, very sheer and cool are \$3.50. These are two of the very latest things you must see.

A Hosiery Idea Direct from Paris

No, these hose didn't come from across the water but the idea did. This is the new French seam—a double weave seam about a half inch wide right up the back of each stocking.

French seam hose are full fashioned and they come in a good shade of grey and in black. Pure thread silk quality. \$3.50 a pair.

Jane Spencer
